**Your time and a little mileage
will be your only investment.
Your return on that investment
can be huge !!**

Crop, Soil & Water Mgt. Clinic

Tuesday, February 14, 2012

AG PARK EXHIBIT HALL

822 15th Street

Columbus, NE 68601

8:30 a.m. Refreshments

9:00 a.m. Start

**To Eat you MUST REGISTER NO LATER THAN
FRIDAY, FEBRUARY 10, 2012**

by email: rwilke2@unl.edu

by phone: 402-370-4000

Your fields are 'warehouses' that store the needed supplies for successful crop production. Monoculture cropping and tillage deplete 'warehouse' inventories.

Learn how you can keep the 'warehouses' adequately stocked with nutrients and water using crop diversity and rotations, cover crops and no tillage.

UNIVERSITY OF
Nebraska
Lincoln EXTENSION

Know how. Know now.

Some of the presenters will be speaking at both the February 13 Seminar and the February 14 Clinic. Each of the presenters are experts in their respective fields of science. They actually practice the production recommendations provided...and have proof of the economic and environmental benefits.

Dr. Dwayne Beck
February 13 & 14

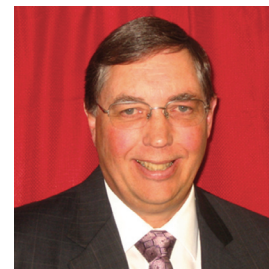

Paul Jasa
February 13 & 14

Ray Ward
February 13

Dan Gillespie
February 14

Al Vyhnalek
