SCS REPORT
Ray Griffin, Liaison District Conservationist, reported that Bob Pollock, Soil Scientist in Aurora, is being transferred to Lincoln in early January. The contractor certification of land treatment practices discussed earlier will not be implemented. Griffin reported that the Aurora Chamber of Commerce may be contacting the Water Department to give a presentation at one of their meetings in the near future.

WATER COMMITTEE REPORT
White gave a report of the Water Committee Meeting held November 13, 1980, and reviewed the committee report as distributed.

WELL REGISTRATION AND PERMIT QUARTERLY REPORT
White reported that as of September 30, 1980, 446 permits were issued in the Upper Big Blue NRD, 12 permits expired because of failure to drill the well within the 1 year time period allowed. This leaves 434 valid permits. Of the 434: valid permits, 316 wells are drilled and registered.
Fifty wells were registered in the third quarter of 1980 bringing the total registered to 9,947. Of those wells, 9,852 are irrigation wells, 82 are municipal wells, 11 are industrial wells and 2 are domestic wells over 100 gallons per minute.

The total number of registered wells in Nebraska through September 30, 1980, is 66,675, with the following breakdown. Irrigation wells - 65,275, Municipal wells - 1,095, Industrial wells - 289, and other - 16.

IRRIGATION REPORTING PROGRESS
White reported that as of November 13, 1980, 3,656 wells, or approximately 37% of the wells in the NRD had been reported by approximately 1,372 operators. The deadline for reporting is January 1, 1981.

FRIESEN DAM WATER RIGHTS
White reported that Howard Anderson, Farm Manager for Leota Stevens, the landowner on the upper end of the Friesen Reservoir, has indicated that they do not wish to use water from the reservoir at this time. Garry Friesen has not made any indication of his intentions as yet. The staff will inform Mr. Friesen of his options and the requirements for using water from the reservoir. If Mr. Friesen chooses to use water from the reservoir, it will be up to him to make a request.

BERGEN DAM WATER RIGHTS
White reported that the Bergen Estate, Marie Ratzlaff, and Leota Nunnenkamp have all requested the use of water for irrigation from the Bergen Dam. The permanent storage capacity of the Bergen Dam is 80 acre feet. White made the motion (Motion #2) that the request for the use of water from the Bergen Dam by the Bergen Estate to irrigate 27 acres, by Marie Ratzlaff to irrigate 60 acres and Leota Nunnenkamp to irrigate 18 acres be approved with the following conditions: (1) the acreages requested to be irrigated is considered to be a maximum acreage and each user must realize that climatic conditions may limit the availability of water to irrigate all of these acres and (2) if any of the water users requires access onto another landowner's property in order to pump water, they must negotiate for such directly with that landowner and the District shall not intervene in such negotiations unless such access would be detrimental to the interests of the District. Seconded by Burke. Question called. Motion carried.

BUDGET, PLANNING & LEGISLATIVE COMMITTEE REPORT

Stuhr gave a report on the Budget, Planning and Legislative Committee Meeting held September 16, 1980, and reviewed the committee report as distributed.

INTERIM CONTROL AREA "PROPOSAL"

The Twin Platte NRD has requested that the Nebraska Association of Resources Districts consider an interim control area proposal at the September 22-23, 1980 Annual Conference. This interim control area would allow a NRD to designate an interim control area at the time a hearing, by the Director of the Department of Water Resources, is requested. The hearing would then be delayed for up to a maximum of five years while the NRD assembled data to present during the hearing. All control area authority, including funding, could be utilized by the Natural. Resources District in an interim control area. The Director of the Department of Water Resources would have no authority over the interim control area. The public could request an election to consider removal of the interim control area by filing a petition containing the signatures of 25% of the registered voters from within the area affected. The purpose of this interim control area would be to prevent irreversible declines or other adverse effects of groundwater while data is being assembled and studies are in progress. Stuhr made the motion (Motion
that the Board of Directors support the interim control area proposal submitted by the Twin Platte NRD to the Nebraska Association of Resources Districts at the NARD Annual Conference September 22-23, 1980. Seconded by Ehlers. Question called. Motion carried.

SCS COMPLIANCE CHECK POLICY
Stuhr reported that the District had been informed on September 16, 1980, that the SCS Southeastern Area (15 counties including Butler County) will change its policy on October 1, 1980, for a period of one year. The new policy will no longer require the SCS to conduct compliance checks for conventional terraces and waterways. Compliance checks are the onsite inspection and acceptance of the contractor's work. Instead, the SCS will ask the contractors to certify their own work and the SCS will sign the practice off without a field inspection. However, 5% of the total work done will be spot checked. This policy will affect the L.B. 450 applications and the District's land treatment program. No written notification has been received from the Area Office, although the policy change appears to be a result of manpower reductions and mileage restrictions. The danger lies in reducing the quality of work through such a policy. The District has been informed that a resolution opposing such policy change will be introduced at the NARD Conference on September 22-23, 1980. Stuhr made the motion (Motion #17) that the Board of Directors go on record as opposing the concept of reducing or eliminating compliance checks by the SCS on conventional terraces and waterways. Seconded by Ronne. Question called. Motion carried.

LEGISLATIVE REVENUE COMMITTEE HEARING
Stuhr reported that a Revenue Committee hearing will be held on September 19, 1980, in Lincoln to hear testimony on the 7% lid now in effect. Stuhr made the motion (Motion #19) that the General Manager be directed to appear and testify before the Legislature's Revenue Committee on the Long Range Plan and the projected results of the 7% lid restriction. Seconded by Burke. Considerable debate followed on whether the 7% lid restriction should apply to NRDs. It was felt that the Long Range Plan indicated that the 7% lid should be removed. Ehlers amended Motion #19 to make the motion (Motion #20) that the last line of the Long Range Plan be revised to read "Or, is water storage important enough to the long term economic basis to warrant in resources development fund levels or increased state aid from taxes other than property taxes?" Amendment seconded by Peters. Question called on the amendment. Amendment carried.

OFFICE SPACE
Kaiser reported on the need for additional office space for the NRD headquarters. Two possible floor plans are being considered, one as an addition to the existing building and the other, a new building. It is estimated that about 6,000 square feet of space is needed, which would include a Board Meeting room. The District currently has about 2,200 square feet of space plus its monthly rental of the 4-H Building for major meetings. A cost estimate of adding to the existing facilities has been requested. Once available, it will be presented to the York County Board. If that board agrees, an addition is then possible. If not, other rental space is necessary. The proposed floor plans are available for review at the office.

Meeting adjourned at 11:28 p.m.

IRRIGATION APPROPRIATION FROM DISTRICT RESERVOIRS
White made the motion (Motion #9) that the district policy for irrigation from road structures which states "If the landowners wish to use water for irrigation purposes, a one time fee of $500 is requested to cover the administrative costs of obtaining the necessary storage and use permits from the Department of Water Resources" be rescinded and that the following policy be adopted. The District will hold in its name the storage permits and storage use permits for all structures which the District operates and/or maintains. Upon request by a landowner, the District will consider on a case by case basis whether or not a storage use permit to be used by the landowner should be obtained. If such request is approved, the landowner shall pay the District for all fees required in obtaining the permits from the State of Nebraska and shall also pay a fee of $100 for preparation of the necessary maps and forms.
Seconded by Burke. The staff feels that current policy regarding fees for irrigation from road structures is very difficult to administer when multiple landowners are involved. After considerable discussion from the Board, motion (Motion #9) was withdrawn and issue was sent back to the Water Committee for further consideration.

**CONTROL AREA POLICIES**

White reported that each director received a questionnaire concerning the use of groundwater. This information will be used to help the Committee make some decisions on control area policies in the future.

**WATER APPROPRIATION PERMIT MAPS**

White made the motion (Motion #10) that effective July 1, 1980, the District's fee for preparation of plat maps for water appropriation permits shall be raised from $25 to $40 for each map. Seconded by Obermier. This increase in fee is a result of inflation in supply coat and also the amount of time required to prepare the map. Question called. Motion carried.

BUDGET, PLANNING the LEGISLATIVE COMMITTEE REPORT
Schneider gave a report on the Budget, Planning the Legislative Committee meeting held June 17, 1980, and reviewed the committee report as distributed.

REVIEW FY 81 BUDGET
Schneider reported that the Budget the Planning Committee reviewed the FY 81 Budget. The consolidated budget including the various Committee's tentative recommendations was submitted. The draft budget includes a 7% increase in tax revenues, but shows a major decrease in overall expenditures. Lack of outside funding will be the major reason for the decreases. The Budget Committee will not compile a final budget until the year end financial statement is received by the staff. The Budget Hearing will be held at the August Board meeting.

LAND TREATMENT POLICY
Schneider reported that the Land Treatment Sub-Committee forwarded their recommendation to the Budget the Planning Committee to adopt the revised Land
Treatment policy. Schneider made the motion (Motion #26) to adopt the Land Treatment Policy as revised, with the additional changes to delete paragraph no. 7, page 2; and also on page 2, that another paragraph read "The landowner/cooperator is responsible to turn in a copy of the bill from the contractor to the NRD prior to final payment. A joint check will be issued to the cooperator and contractor". Seconded by Anderson. Turnbull reviewed in detail the amended Land Treatment Policy. This new Land Treatment Policy has many changes and alterations from the previous Land Treatment Program. A $3,500 maximum limit per cooperator per year has been added. Also, the cost-share rate shall be the lesser of 75% of estimated cost or 75% of actual cost less the amount of federal and state funds has been supplemented. Board discussion followed. The Irrigation Reuse Pit land treatment practice was discussed in great length. Paragraph 5, page 2, was also discussed concerning replacing trees in order to construct land treatment practices. McLean amended motion #26 to make the motion (Motion #27) to add "when practical" in paragraph 5, page 2, following "suitable location". Amendment seconded by Peters. Board discussion continued. Question called on the amendment. Amendment carried.

IMPROVEMENT PROJECT AREA POLICY

Turnbull reviewed the NRD Improvement Project Area Law. This law provides a legal mechanism for landowners to form a joint project under the guidance of a NRD. If an improvement project is established, the District becomes the project sponsor and is responsible for planning, construction, operation and maintenance. The landowners can expect to pay the bulk of the necessary land rights and construction costs. Turnbull stated that he has met with two groups of landowners in the past month to discuss drainage problems and what to do about them. The general desire of the landowners is for the District to stand most of the construction and other costs, which is the common reaction in projects of this size and nature. The District can invest considerable funds in planning and engineering to arrive at an acceptable plan and determine who is going to pay how much. In doing so, without a firm understanding with those in the area, the District stands to risk a great deal of time and effort if the project is not constructed. Therefore, a recommendation is being presented to adopt an improvement project area policy. Schneider made the motion (Motion #29) that the District adopt the following policy for improvement project areas, effective July 1, 1980. NRD Cost-share: The District will stand the cost of planning and engineering only if the project goes to construction.
Otherwise, the landowners who would have benefitted from the completed project will be assessed the planning and engineering costs. NRD funds for construction and land rights costs are considered on a case by case basis and then only when the general public will benefit. Seconded by Stuhr. Board discussion followed. Question called. Motion carried.

PROGRAMS BOOKLET REVIEW

Schneider made the motion (Motion #30) that the Board adopt the FY 81 Programs Booklet as amended to include only $5 per acre per year increases from FY 81 in payments for Practices I, III, IVB and IVC of the Wildlife Habitat Program. Seconded by Hansen. Board discussion followed. The Parks, Forestry the Wildlife Committee recommends these annual payments be increased to an-average of $10 per acre per year in the Wildlife Habitat Program. The Budget Committee feels that under the District's limited budget, it is unwise to increase the payments. Higher payments per acre on a fixed budget means that fewer acres can be signed up on the program. Parks the Wildlife Department Manager explained that he would rather have the fewer acres and have better acres under the Wildlife Program, and increase the annual payments to coordinate with the Game the Parks Commission's program. These annual payment increases affect only those practices establishing new wildlife cover acres, not those under existing cover. Anderson amended motion #30 to make the motion (Motion #31) to adopt the annual payment increases under the Wildlife Habitat. Program, effective July 1, 1980, as follows: the (a) That the annual payment per acre be raised from $25 per acre to $35 per acre for Practice I, native grass seeding. The Game the Parks Commission will provide a one-time payment of $25 per acre for soil preparation costs. (b) That the annual payment per acre on Practice III, oats and sweet clover, be raised from $20 per acre to $30 per acre. (c) That the annual payment per acre on Practice IVb, border planting of grass, be raised from $25 per acre to $35 per acre. And, (d) That the annual payment per acre on Practice IVc, border planting of grass, trees and shrubs, be raised from $35 per acre to $50 per acre. Seconded by Schlueter. Question called on the amendment. Amendment carried.

BOARD POLICY

Schneider made the motion (Motion #32) that all NRD project funds be only expended within the District boundaries unless approved by 3/4 majority (75%) of those board members present at the time of the decision. Seconded by Hansen. Present policy on the District spending funds on projects outside the District boundaries is by simple majority, 50%. It was felt by the Budget the Planning the Committee that this should only be approved if a solid majority of the Board members present agreed. Board discussion followed. Hegeholz amended motion #32 to make the motion (Motion #33) to make the majority 60%
of those members present rather than 75%. Seconded by Kaiser. Question called on the amendment. Amendment failed.

SCS REPORT
Ray Griffin, Liaison D.C., Aurora, gave a report that a new D.C. will be at the Osceola SCS Office, David Brand, and a new D.C. is at the Wilber SCS Office, Gary Wooten.

Griffin also reported on the work schedules of the area field offices. The Aurora, Clay Center, Osceola, Seward and York SCS Offices are remaining on the 8 hour 5 day work week. The Geneva SCS office will have one man on the 8 hour 5 day work week and the other on the 10 hour 4 day work week. The Hastings SCS Office will be going on the 10 hour 4 day work week for their employees. David City and Wilber have not reported their work week schedules.

Griffin also reported that a Mr. S. J. Day, an official of the Australian counterpart of the Soil Conservation Service, will be in the area on May 22 and 23, 1980. He plans to meet at the Aurora office with Ray and John on Friday, May 23, 1980, and is wanting to learn more about the NRD concept.

EDUCATION COMMITTEE REPORT
Ehlers gave a report on the Education Committee meeting held May 5, 1980, and reviewed the committee report as distributed.

1980 COUNTY FAIR PARTICIPATION
Ehlers reported that the Committee reviewed the 1980 County Fair participation. The Committee determined that the NRD Public Information Department should maintain a fair booth at seven county fairs, providing the dates do not conflict. Student help will be hired to help watch the booths and video tape equipment that will be a major part of the display this year.

1980 CONSERVATION FARM AWARD NOMINATIONS
Ehlers reported that all SCS offices in the NRD were recently notified to submit nominations for Conservation Farm Awards by May 23rd. The Education Committee and staff will be evaluating each farm and visiting with the owners. The format of contracting a photographer, securing sponsors and locating an event to present each award will be used again this year. Ehlers reviewed that the 1979 Award Presentations were considered a success as attendance reports indicate.

1980 SUMMER TOUR
Ehlers made a motion (Motion 4) that a tour of north-central Nebraska be conducted as proposed the week of August 4, 1980. "Seconded by White. The proposed tour will involve the north-central portion of Nebraska and will highlight several surface irrigation projects and proposed dam sites. The tour is planned to be three days and a charter bus will be utilized for the group. The Tentative Tour Itinerary has been previously sent to each Director for their review and comment. Question called. Motion carried.

EXPANSION OF NEWSLETTER
Ehlers reported that the Committee discussed the possibility of increasing the District's newsletter coverage. Ehlers made the motion (Motion #5) to expand the District's newsletter coverage by printing an additional 3,000 copies for distribution at county fairs, meetings, businesses and at high level target areas of the District. Seconded by White.
Printing would be increased to 10,000 copies and costs of the additional printing was reviewed. Question called. Motion carried.

DISTRICT TOURS
Ehlers reported that the Nebraska Water Resources Center staff will spend part of a day, May 29th, touring the District.

Another tour in the spring consisting of a delegation of state senators is also in planning.

HASTINGS NW FLOOD CONTROL PROJECT GROUNDBREAKING
Ehlers reported that on April 23, 1980, a ceremony was held at the Hastings NW Flood Control dam site to dedicate this project. Several city, county and resource conservation officials involved with the project were present. The event was covered by many area television and newspaper media. A ceremonial shovel was presented to the Mayor of Hastings by our Chairman, Larry Moore.

NACD NORTHERN PLAINS REGIONAL MEETING
Notice was given of the 1980 NACD Northern Plains Regional Meeting to be held at Medora, North Dakota, June 16-18, 1980.

TEACHER CONSERVATION INSTITUTE
Ehlers reported that the District has approved to sponsor six teachers within the District for a one week environmental education course at Camp Jefferson in Fairbury, May 27-June 6, with a grant of $100 per teacher. An additional request has been received and it is recommended to approve an additional grant be permitted. Ehlers made the motion (Motion #6) to approve the additional grant for a teacher to attend the Teacher Conservation Institute at Camp Jefferson. Therefore, the District will sponsor seven teachers rather than six, at $100 each. Seconded by Anderson. Question called. Motion carried.

WATER COMMITTEE REPORT
White gave a report on the Water Committee meeting held May 8, 1980, and reviewed the committee report as distributed.

BASE PERIOD DECLINE
White reported that the Committee discussed in great length the Base Period Decline. The major topic discussed was the years which actually make up the base period. It was decided to use the well readings which the staff had been using. Therefore, the difference between Spring 1976-1977 represents the 1976 year; the difference between Spring 1977-1978 represents the 1977 year; and the difference between Spring 1978-1979 represents the 1978 year. The average annual rate of decline based on the three year period of 1976, 1977 and 1978 is 0.43 feet. Further discussion involved to what decimal place the 0.43 decline is accurate. The staff indicated that they are confident in the accuracy of the numbers used and the method of calculation, but that in any thing you do, there is certainly possibilites of human error. The consensus of the Committee was that because of the volume of wells measured and the fact
that even though the data and method of calculation was carefully screened, there is always a factor of human error. The Committee expressed, to compensate for error, that the rate of decline which would start allocation should exceed 0.50 feet. White made the motion (Motion #7) that the Upper Big Blue NRD Board of Directors recognize that the present average annual rate of decline is 0.43 feet. This rate of decline is based on the three year period of 1976, 1977 and 1978. If the average annual rate of decline for the three year period ending December 31, 1981, or any subsequent three year period of record, exceeds 0.50 feet, Rule 2 111 (1) and (2) of the Upper Big Blue NRD Groundwater Control Area Rules and Regulations will be implemented. Seconded by Burke. A long discussion followed concerning the adoption of the base period decline figure. Stuhr amended motion #7 to make the motion (Motion #8) that the third paragraph under subtopic 1. Base Period Decline be deleted from the Water Committee Report dated May 81 1980, and that this be brought to issue at a later time. Seconded by Ronne. Question called on the amendment. The amendment carried.

LETTER FROM PUBLIC WORKS
White reported that the office received a letter from Mary Sommermeyer, Legal
Counsel for the Public Works Committee of the Legislature. In the letter, she asked questions concerning late permit problems, non-permitted wells, and who is responsible for the well. The Committee discussed the letter, and instructed John Turnbull to reply taking the Committee's comments into consideration. Well spacing was also addressed in the reply.

L.B. 643
White reported that L.B. 643, which passed the Legislature and was signed by the Governor, does enable those who failed to get a permit to now get a late permit to continue operation of the well. This law goes into effect July 19th, and the staff is all ready working with the Department of Water Resources on the details and the late permit forms. Our District has about four or five wells under this category. This law is also retroactive to the start of the Control Area. Board discussion was held.

LOWER LOUP NRD CONTROL AREA REQUEST DENIED
White reported that the Committee was informed that the Lower Loup NRD Control Area request was denied. The Committee reviewed the reasons for the denial.

ADDITIONAL BUSINESS

White reported that the Twin Platte NRD has proposed an Interim Control Area Authority. He briefly reviewed the concept. The NARD Water Resources Committee will be discussing this proposal at their next meeting, June 2nd.

Questions were raised on the runoff problem of the sprinkling of the roads by center pivot systems. These problems are enforced by the County Attorneys.

LAND TREATMENT SUB-COMMITTEE REPORT
Turnbull reported on the Land Treatment Sub-Committee meeting held May 6, 1980. This Sub-Committee of Budget and Planning is developing a new Land Treatment Program Policy. The decisions reached will be assembled into one comprehensive recommendation to be forwarded to the Budget and Planning Committee. They will review the final recommendation and forward it to the Board for approval. The Board should review the Land Treatment Sub-Committee report and submit any comments or suggestions for review at future sessions.

NOTICE OF MEETING
A copy of the agenda was sent to each member as a notice of this special public meeting. Public notification was made by a "Notice of Public Meeting" published April 16, 1980, in the York News-Times. A current agenda is kept on file for public inspection at the District office.

Roll call was taken of the members present, with Obermier arriving later in the meeting.

The purpose of this Special Board of Directors Meeting is to make a final decision to proceed with final design and construction or suspension of the School Creek Site #3 Project, Clay County, Nebraska.

SCHOOL CREEK PROJECT SITE #3
John Turnbull and Jay Bitner gave a presentation concerning the economics and technical aspects for the School Creek Project Site #3. Bitner reviewed a cash flow stream table explaining the rate of return calculations for this project. (Refer to the attached table.) The estimated rate of return at this time is 5.4%.

Turnbull reviewed the total acres involved in the Site #3 Project. 312 total acres will need to be acquired either through easement or fee title; of this, 228 acres are in the permanent pool. The project, to be completed over the
next four years, has a total estimated cost of $775,700. 30 guests from the School Creek Site #3 Project area were in attendance at this Special Board Meeting.

A question and answer period was held reviewing the technical and economical phases of the project.

Turnbull distributed copies of the Executive Summary of the School Creek public opinion survey conducted by SRI Research Center, Inc., Lincoln, Nebraska. He reviewed the summary and recommendations stated of their professional opinion of the School Creek Watershed community survey. 98% of all farmers and ranchers responding felt it important to replenish the underground water supply in their area. (A copy of the Executive Summary prepared by SRI is on file at the office.)

A question and answer period was held reviewing the SRI's Executive Summary of the community survey conducted in the School Creek Watershed area the second week in April.

A long discussion was held concerning various aspects of the School Creek Site #3 Project being proposed for construction.

McLean made the motion (motion #1) that the Projects Committee recommends that the School Creek Dam Site #3 Project, Township 8 North, Range 5 West, Clay County, Nebraska, as shown on current project maps be constructed subject to adequate funding from the Nebraska Natural Resources Commission, the Game and Parks Commission, monies from NRD Sinking Fund, General Fund and cooperating agencies. Further, that project final design be completed and the land rights acquisition process begin. The primary project purposes are irrigation water storage and groundwater recharge. The secondary project purposes are flood control, wildlife enhancement and recreation. Seconded by Hegeholz.

Again, a long discussion was held concerning the pros and cons of continuation of the project, and the procedures that will follow from the decision to proceed or suspend construction of the School Creek Site #3 Project.

Question called. Motion carried.

SCHOOL CREEK WATERSHED - PUBLIC OPINION SURVEY REPORT
Staab introduced Bob Nielsen and John Sheehan, SRI Research Center, Inc., of
Lincoln, Nebraska. Mr. Nielsen distributed copies of the actual survey conducted, which included a poll of people's opinions on water conservation and other water related concerns in the School Creek Watershed area. He reviewed the tabulated results of the Community Study in great detail. The Board asked questions concerning the survey and discussed in great length the results of the public opinion survey report of the School Creek Watershed area. (A copy of the Public Opinion Survey-Report is on file at the NRD office.) A summary of the Survey Report will be submitted by SRI Research Center by April 23rd.

**SCS REPORT**
Ray Griffin, Liaison D.C., Aurora, distributed copies of the Liaison Progress Report, which included quarters one and two of activities and practices within the NRD through March, 1980.

Griffin also reported that the USDA Soil Conservation Service has given their employees the option to go to a 10 hour, 4 day work week, with the field offices being open five days a week. Reasons given where to cut costs.

Mike Rabbe, D.C. Fillmore County, Geneva, gave a presentation and slide show on Conservation Tillage. He reviewed the no-till method of farming.

**EXECUTIVE COMMITTEE REPORTS**
Kaiser gave a report on the Executive Committee meeting held March 27, 1980, and reviewed the committee report as distributed.

**CONDUCTING A SURVEY OF PUBLIC ATTITUDE FOR THE SCHOOL CREEK WATERSHED**
Kaiser made the motion (Motion #3) to approve the expenditure of $4,500.00 for the public opinion survey conducted in the School Creek Watershed area. Seconded by Hansen. Question called. Motion carried.

Stuhr reported that the SCS in Osceola have requested some remodeling to the NRD Building. Cost estimates were reviewed by the Committee and discussion was held to negotiate a rent increase to justify the necessary work. A report will be made at a later date.

**FUTURE NRD OFFICE SPACE**
Stuhr reported that the Committee discussed alternatives for additional or new office space for the NRD headquarters office.

**WATER COMMITTEE REPORT**
White gave a report on the Water Committee meeting held April 10, 1980, and reviewed the committee report as distributed.
BASE PERIOD DECLINE

White reported that the Committee discussed the Base Period Decline in great length and detail. White reported that the Water Department told the Committee the final calculated decline for the base period of 1976, 1977 and 1978 is -0.43 feet/year. Staff also explained that they had gone back and calculated the decline for every year from 1962 to 1978. The average for that period was -0.37 feet/year. Therefore, the base period decline was rounded to the nearest tenth of a foot, -0.4 feet/year. This base period decline is the standard for the future. If after December 31, 1981, or subsequent periods of record thereafter, the three year average decline is greater than the base period decline (-0.4 feet/year), then allocation and flow meters would become mandatory according to the Control Area Rules and Regulations. Examples of how the base period calculation would affect the Control Area and allocation was reviewed. 1976-1977-1978 - Base period decline is -0.4 feet/year.

Example No. 1: 1979-1980-1981 - decline average -0.3 feet/year; -0.3 is less than -0.4, so allocation would not start

Example No. 2: 1979-1980-1981 - decline average -0.5 feet/year; -0.5 is greater than -0.4, so allocation would begin. In 1982, flow meters would be installed; and in 1983, the first allocation would begin.

White made the motion (Motion #5) that the Board adopt the following statement concerning the base period groundwater decline: That the Upper Big Blue NRD Board of Directors recognizes that the present rate of decline is -0.43 feet/year based on the three year period of record 1976, 1977 and 1978. All calculations were based on the spring water level measurements as follows: The difference between spring 1976, and spring 1977, represents the 1976 year. The difference between spring 1977, and spring 1978, represents the 1977 year. And, the difference between spring 1978, and spring 1979, represents the 1978 year. The initial goal of the District is to hold the rate of decline of the groundwater table to this present rate -0.4 feet/year (-0.43 feet/year rounded off). The Board of Directors further recognizes that if the present rate of decline is exceeded, rounded off to the nearest tenth of a foot (-0.450 feet/year) by December 31, 1981, or subsequent periods of record thereafter, Rule 2,111, (1) and (2) of the Control Area Rules and Regulations will be implemented. Seconded by Burke. A long discussion followed concerning the adoption of the base period decline figure. As the Rules and Regulations are stated now, that once the base period decline is exceeded, flow meters and allocation would be established with no turning back. Adjustments to the allocation amounts would be the only means of offsetting years of rise in the average decline rate. Rounding the base period decline to the nearest tenth of a foot was discussed. Rounding the base down when the decline is -0.44 feet/year; and rounding the base up when the decline exceeds -0.45 feet/year and greater. The costs of administering the Control Area was a large concern. Kaiser amended motion #5, to make the motion (Motion #6) to strike the last part of this statement, which refers to if the present rate of decline is exceeded, and the implementation of Rule 2 by December 31, 1981. No second to the amendment, the amendment: died. Question called on the original motion.

Motion failed.

RUNOFF INSPECTOR BILLS

White reported that the Blue River Association of GWCD's submitted a bill to the District for the NRD's portion of the cost for the 1979 runoff inspectors
as per our agreement with them. The District is to pay 2/3 of the cost. White made the motion (Motion V) to approve payment of the billing for the 1979 runoff inspectors as follows: Hamilton County $444.21, Seward County - $397.41, York County - $465.55, and Fillmore County $107.13. A total bill of $1,414.30. Seconded by Kaiser. Questions were raised about the Fillmore County Inspector's work during the 1979 irrigation season. Question called. Motion carried.

WATER COMMITTEE'S AD-HOC WATER BILL RECOMMENDATION
Turnbull reported that the Water Committee reviewed the Ad-Hoc Water Bill and forwarded a recommendation to the Programs and Legislative Committee for consideration. The Programs and Legislative Committee discussed the Bill and made a recommendation. Turnbull reviewed the recommendation with the Board. Ehlers made the motion (Motion #31) that the District supports the provisions of the proposed AD-HOC Water Bill Sections 1 through 23. That the District takes the following position on additional funding as proposed in this legislation and makes the following suggestions with regard to funds for groundwater management: That the Legislature recognize (1) that the current and proposed funding under the Groundwater Management Act is restricted solely to the administration of the control area; (2) that Natural Resources Districts have demonstrated effective and responsible management of public funds; (3) that in many areas structural measures are also needed to obtain proper management of groundwater; (4) that the interest and support of the general public, in the upper Big Blue NRD, suggests that further development
of water conservation efforts are needed in addition to regulations; and (5) therefore, if the Legislature chooses to increase the funding for groundwater management, the Upper Big Blue NRD urges the Legislature to remove the restrictions on those funds to the extent that the NRD Board of Directors may utilize them at their discretion for groundwater management efforts. Seconded by Schneider. Question called. Motion carried.

Stuhr made the motion (Motion #2) to thank Ray Griffin for his past services and valuable contributions to the District. Seconded by Schlueter. Question called. Motion carried by unanimous vote.

BUDGET, PLANNING & LEGISLATIVE COMMITTEE REPORT
Stuhr gave a report on the Budget, Planning & Legislative Committee Meeting held December 9, 1981, and reviewed the Committee report as distributed.

BIG BLUE IRRIGATION PROJECT
Stuhr reported that the committee was briefed on the progress of the transbasin diversion project by the staff. Many details have been worked on including the computer program, pumping stations, canal sizing and routes,
Turnbull reported that negotiations and agreements have been made with the other organizations involved in the Big Blue Irrigation Project, a project the district has been working on since 1974, as authorized by a board motion on May 6th of that year.

Turnbull reviewed the agreement between the Central Nebraska Public Power and Irrigation District, the Platte River Whooping Crane Trust and the Upper Big Blue NRD (agreement attached to file copy of minutes). The agreement is to file a joint application for the Plum Creek Reservoir Site, Gosper County, Nebraska, for 315,000 acre feet of water for storage. Part of that water will eventually be used in the NRD's transbasin diversion plan to the Upper Big Blue Basin. Stuhr made the motion (Motion #3) that the District enter into the agreement concerning the Plum Creek Reservoir proposal (Gasper County), between the Central Nebraska Public Power and Irrigation District, the Platte River Whooping Crane Habitat Maintenance Trust, Inc., and the Upper Big Blue NRD; and to authorize Larry Moore, as Chairman, to sign the same. BUILDING COMMITTEE MEETING REPORT
Hansen gave a report on the Building Committee Meeting held November 27, 1981, and reviewed the committee report as distributed.

BUILDING PLANS
Hansen reported that a motion was passed on November 19, 1981, directing the district to prepare complete design plans for two building configurations, one with a full basement and one without a basement. On November 25, 1981, the cost estimate of $14,000 was received from the architects for additional design services. A special committee meeting was called to reconsider the need for two complete sets of plans. Current and future needs of the district, the suitability of the site for a basement, the cost estimates of each configuration, the desirability of one floor or two, and handicap access and fire code requirements were also considered and discussed. Hansen made the motion (Motion #11) that the building with the floor plan of the offices on the main floor and a full basement (one-half to be finished, dated 11-10-81) be designed and advertised for bids. Seconded by Ronne. Question called. Motion carried.

SCS REPORT
Ray Griffin, Liaison D.C. presented the district with two copies of the 1981 RCA Program Report and Environmental Impact Statement. The USDA soil and water conservation questionnaire was discussed. Response must be made to the State Soil Conservation Service before January 15, 1982. Bill Gilliam, York Co. D.C. discussed a new program call "The Full-Time Farmer-Rancher Project". This is a nation-wide program that will be introduced in 1983. Nebraska is one of the ten, states selected as pilot projects and York County is one of the ten counties selected within the state. The FHA is the lead agency in the project. A developmental meeting is going to be held November 20, 1981, at 9:00 a.m. in the FHA office in York. A NRD board member or staff member is asked to serve on this committee.

EXECUTIVE COMMITTEE MEETING REPORT
Kaiser gave a report on the Executive Committee Meeting held November 10, 1981, and reviewed the Committee report as distributed.

1982 WASHINGTON D.C. TRIP
Kaiser made the motion (Motion #2) that the District send two directors and one staff person on the Washington D.C. lobbying trip in 1982. Further, that Roy Stuhr and Lowell Peters represent the District with Roger Kaiser as the alternate. Seconded by Burke. Question called. Motion carried.

SCS TECHNICIAN
Kaiser reported that a request was made of this District through the Lower Platte North NRD to assist in paying for the November salary for the temporary SCS technician in Butler County. Kaiser stated both the manager and the committee felt that his District cannot afford to pay for that assistance for two reasons. (1) the district is no longer employing field technicians and (2) the FY 1982 land treatment funds have all been obligated.

OSCEOLA FIELD OFFICE
Kaiser reported that the committee directed the manager to interview and hire a contractor to remodel the Osceola field office and to expect the expenses to be in the range of $10,000. There being no objection from the board, the manager will proceed.

OUT-OF-STATE CONVENTION POLICY
Kaiser made the motion (Motion #4) that for any convention or conference held out of state, the policy be adopted that the district will send, at district expense, a maximum of two directors and one staff member. Seconded by Peters. The cost of attending out of state conventions versus the amount of information returned to the board was discussed. Burke made the motion (Motion #5) to amend the motion to read that the district will send, at district expense, a maximum of three directors and two-staff members, with the staff number being at the discretion of the general manager. Seconded by Stuhr. Question called on the amendment. Amendment carried.

OFFICE BUILDING FLOOR PLAN
Turnbull reviewed a floor plan with the Board which included the offices on the first floor with a board room in a full basement (referred to as Plan D). The size and cost of the presented floor plan was discussed. Ratliff made the motion (Motion #6) that Plan D (the floor plan of the offices on the main
floor with a full basement, one-half of which is to be finished) go to bids. Seconded by Anderson. Further discussion followed on the amount of time that will be lost if the two-story building plan proves to be too expensive after bids are let. Stuhr made the motion (Motion #7) to amend the motion that two sets of plans, Plan D (the floor plan with offices on the main floor with a full basement, one-half of which is to be finished) and Plan B (the single floor plan with no basement) go to bid. Seconded by Kaiser. Question called on the amendment. Amendment carried.

NRD WATER RESOURCES INFORMATION PUBLICATION
Staab reported that the new information booklet regarding ground and surface water has been completed and that it is time to determine how many copies of the publication should be printed. It was stated that the staff recommended 1,000 copies be printed but committee members felt a number of 200 would be more in order at this time. Two quotes were obtained from York Printing Company of York. 1,000 copies would cost a total of $3,000 or $3.00 per copy. 200 copies would cost a total of $2,071.00 or $10.36 per copy. The staff was directed to obtain quotes from several other printing companies on 200, 500, and 1,000 copies.

CAMP JEFFERSON TEACHER CONSERVATION WORKSHOP
Burke made the motion (Motion #18) to support six teachers from the Upper Big Blue NRD at $178 per teacher for a total of $1,068.00, if six teachers can participate. Further, that the teachers demonstrate a willingness to attend and be accountable. Seconded by Anderson. Question called. Motion carried.

BUILDING COMMITTEE REPORT
Hansen gave a report on the Building Committee Meeting held October 1, 1981, and reviewed the committee report as distributed.

BUILDING PLANS
Hansen reported that the architects met with the Building Committee to review possible floor plans. The architects have prepared several floor plan layouts for the staff to consider and two basic plans have evolved from those discussions. "Plan A" is comprised of office space and functions on the ground floor with a board room and storage located in a basement. The other concept presented to the Committee consisted of the office space and board room all located on one floor. Hansen reported that the Committee considered the pros and cons of each idea at length, and concluded that the plan should include a walkout basement on the Southwest portion of the building, with a main entrance on the East. The Committee, after hearing the architect's advice, preferred the second concept, but with the addition of a partial basement. This plan was designated "Plan B" by the Committee. Hansen made the motion (Motion #3) to adopt the concept of "Plan B" with a partial unfinished basement. Seconded by Ehlers. Considerable discussion followed on the size, layout and cost of the proposed building plans. Moore made the motion (Motion #4) to table "Plan B" and send the matter back to Committee for reconsideration. Question called. Motion carried.

LAND TREATMENT - POLICY VARIANCE
Ehlers reported that a request for land treatment policy variance was presented. The request is that a land treatment application be allowed for a road dam in Polk County such that the upstream landowner would pay 25 and the NRD would pay 75 percent of the county average cost for building a dam in the field. The County would pay all additional costs for building the dam on the road. The upstream landowner would be the owner of record on the dam, and the NRD payment would be to the landowner. The SCS will provide design and construction inspection. Ehlers made the motion (Motion #10) that the SCS prepare an application for Waller Dam in Polk County so that it conforms to SCS criteria for land treatment dams. The NRD will cost-share 75% of the county average cost for building the structure in the field. The landowner will pay 25% of the county average cost. The final design of the structure will be on the road with the county paying the cost differential. Seconded by Peters. Question called. Motion carried.

RAWHIDE PROJECT - LEGAL DEFENSE FUND ASSISTANCE
Turnbull reported that last month the Judge in the District Court proceeding ruled that the Natural Resources Commission and the Natural Resources District were required to establish rules and regulations establishing minimum feasibility standards and minimum due process standards of notice and hearing for the creation of general benefit projects and/or special benefit projects of the natural resources district. In so ruling, the Court found that the creation of the Rawhide Flood Control Project and the denial of the creation of a Trouble Creek/Rawhide Creek Improvement Project area by the Lower Platte North NRD was based upon unlawful procedures and violation of the petitioner's constitutional rights of due process and, therefore, vacated and set the decision of the district aside. A motion for a new trial in the District Court was set aside in the last few days and preparations are underway for appeal of the decision to the Nebraska Supreme Court. Turnbull reported that a formal request for assistance from the State Association through the Legal Defense Fund will be submitted to the NARD Board of Directors at their November meeting. The policy regarding the use of the Legal Defense Fund requires that the subject be discussed at one meeting and laid over for consideration at a later meeting.

Turnbull said that it was the opinion of the NARD Executive Committee that an emergency exists and that policy should be specially modified for this situation so that action may be taken to formalize the Association's involvement at the November 10, 1981. Association Board meeting. Moore made the motion (Motion #11) to direct Ray Burke, NARD Board Member, to support NARD participation in the Rawhide case and to support emergency action at the November NARD Board Meeting. **FUTURE IRRIGATION SCHEDULING PROGRAMS**

Ronne reported that the Water Committee discussed the NRD's future participation in the Irrigation Scheduling Program. In May, the Board of Directors voted not to participate financially in future scheduling program areas of the NRD synonymous with the GWCD. The Committee discussed what should be done about the program in Adams, Saline, Butler and Polk counties. Ronne reported that the Committee unanimously voted to not participate financially in an Irrigation Scheduling Program. Vie general feeling of the Committee was that the participation in these counties was very low and many participants were repeats. Therefore, the program was more service-oriented than educational. The Committee felt that the NRD must continue to promote
scheduling as a good energy and water conservation practice.

BUILDING COMMITTEE REPORT
Ronne gave a report on the Building Committee meeting held August 27, 1981, and reviewed the committee report as distributed.

SELECTION OF ARCHITECT
Ronne reported that the committee met with three architectural firms for the purpose of selecting one firm to design a building for the district. Each firm presented samples of work and discussed the design procedure, time requirements, structure layout possibilities, and fee proposal.

Ronne made the motion (Motion #1) that the Board of Directors enter into a contract with Eugene Griffiths Company from Hastings, Nebraska to provide the following services at $20.00 per hour plus expenses, not to exceed the fee total for each phase as specified. (1) Building and space programming - $3,500, (2) Site space programming $1,200, (3) Structural Design - $700, (4) Mechanical/Electrical Design - $4,000, (5) Supplemental Engineer (soil test) - $1,500, (6) Design coordination - $4,600, (7) Construction Services - $12,000. Total cost $27,500. Ronne further moved that the Building Committee be authorized to proceed with proposal items 1 and 2 as follows:

Item 1 - BUILDING AND SPACE PROGRAMMING
The architect will work with the District's staff and Building Committee to develop a floor plan and to select basic structure building materials. The architect will develop life cycle cost analysis and comparisons. The architect will develop one variation of a basic floor plan furnished by the District and will develop two independent floor plans. The architect will quantify each floor plan or space utilization program in terms of net unusable area (space occupied by offices, work stations, file storage, and equipment), and net circulation area (square footage required to circulate within the net unusable area and other areas within the core of the building). The floor plans and life cycle cost analyses will be presented to the Building Committee for selection of one floor plan and basic building materials to be used for the balance of design work.

Item 2 - SITE SPACE PROGRAMMING
The architect will use the site specified on the attached plan to provide site plan analysis for two alternatives of building
orientation, parking, utilities, drainage, access road, and landscape. Each site plan analysis will include as a minimum a plan view drawing at a scale suitable for committee presentations and elevation views of the proposed structure on the site. Site development will be consistent with the natural resources conservation theme of the District. Upon committee selection of one plan, the architect will furnish a rendering of the site and building prior to detailed working drawing preparation.

Motion was seconded by Burke. Several questions were directed to and answered by the architects on their proposal and it's contents. Question called. Motion carried.

SCS REPORT
Ray Griffin, Liaison D.C., introduced Harlan Hendricks, and reported that he is presently the District Conservationist in Butler County. Ken Franzen, Adams County D.C. reported on his office's activities with erosion inventory, a procedure associated with the Resources Conservation Act.

WATER COMMITTEE REPORT
Ronne gave a report on the Water Committee Meeting held September 8, 1981, and reviewed the Committee report as distributed.

LATE PERMITS
Ronne reported that Jean Kuhl and Gordon McGowan met with the Committee. They explained to the Committee that they had misunderstood what the requirements were for drilling a well to be connected to another well in a series. Aleeta
C. Wilson is an absentee landowner and is represented by E.H. Powell from Aurora, who did not attend the Committee meeting. Mr. Powell contacted the staff and explained that the well driller and he had a misunderstanding and for that reason a permit was not obtained. Ronne made the motion (Motion #3) that Jean Kuhl's application for a late permit be forwarded to the Department of Water Resources for approval upon receipt of the $275 fee and that Aleeta C. Wilson and E.H. Powell's late permit also be submitted to the Department of Water Resources for approval. Seconded by Burke. Question called. Motion carried.

TRANSFER OF GROUNDWATER

Ronne reported that the Committee discussed the proposal for restricting groundwater transfer. No action was taken at this time because the Committee is waiting for more input from the Groundwater Conservation Districts and other Board Members. The majority of the November and December Water Committee Meetings will be devoted to this subject-

INFORMATION

Ronne reported that the District has received notice that approximately 135 water users from the Blue River, upstream from the mouth of the West Fork will be required to install meters prior to pumping from the river in 1982. The Department of Water Resources is requiring this because of the severe shortages of water in the Blue River in past years and the difficulty in administering water rights.

CENTRAL BUTLER PROJECT
Hegeholz reported that the land rights (easements) are now being acquired for the Stuebing Dam. The Richard Stuebing settlement also includes this district developing a habitat contract in the permanent and flood pool area which includes fencing. The Nebraska Game and Parks Commission and NRD staff are working on a reasonable solution including Game and Parks financial assistance on the fence. Klosterman is interested in water rights, which needs to be resolved. The Lower Platte North NRD is currently negotiating an easement with Mr. Klosterman.
Stuhr gave a report on the Budget, Planning & Legislative Committee Meeting held September 15, 1981, and reviewed the committee report as distributed.

**FY 81 AUDIT**
Stuhr made the motion (Motion #12) to accept the FY 81 audit as prepared by Romans, Wiemer & Schulz, CPAs of York. Seconded by Burke. Question called. Motion carried.

**LONG RANGE PLANNING**
Stuhr reported that the outline of the long range plan was reviewed. The budget projections were discussed in detail. The programs were discussed along with how to best balance overhead costs with expenditures for the District's programs and construction activities. Tax limitation and projections were evaluated. The staff is to make adjustments in the plan for committee review in October.

**SCS CLERKS**
Stuhr reported that the Budget, Planning and Legislative Committee recommends to the Executive Committee that the SCS clerk hours be set at 24 hours per week, effective July 1, 1982, and that the clerk currently working 20 hours remain at 20 hours per week and further, that if any District Conservationist feels increased hours are necessary that they come to the Executive Committee with a workload analysis to justify the need for the increase.

**RATINGS OF DISTRICT PROGRAMS**
The staff presented a list of the District's programs to the board members and others present and then asked them to rate them in order of preference. The results will be calculated and used to assist in the long range planning.

**EDUCATION COMMITTEE REPORT**
Ratliff gave a report on the Education Committee Meeting held September 9, 1981, and reviewed the committee report as distributed.

**STATE LAND JUDGING CONTEST**
The Upper Big Blue NRD will host the state land judging contest on October 17, 1981, and will be assisted by the York County Extension Service, Soil Conservation Service and ASCS Office. Ratliff reported that any volunteer help from the directors would be appreciated.

**SEWARD FFA WILDLIFE PROJECT**
Ratliff reported that Alan Sleight, a Junior at Seward High School, plans to develop a wildlife project on three acres of the family farm near Milford. This project will be developed over a two year period with tree planting, shrubs, native grasses, etc. The project will be utilized by the FFA classes at Seward and will also be available to other students for study. Ratliff made the motion (Motion #13) that $150 be granted to Alan Sleight to be used for wildlife habitat development on a 3 acre FFA project. The project will be documented and a report presented to the Education Committee. Seconded by Ehlers. Question called. Motion carried.

NARD RESOLUTIONS
Kaiser reviewed the resolutions to be considered at the 1981 NARD Conference in September

Kaiser made the motion (Motion #6) to support Resolution 81-1 regarding raising directors' per them rates. Seconded by Hansen. Discussion followed on the large increase and the fact that it would be exempted from the restrictions of the Nebraska Budget Limit Act. Some felt the number of days allowed per year should be raised instead of the compensation per day. It was pointed out that the recommended $35 per day is the ceiling for directors' per them and that amount does not have to be paid. Question called. Motion carried.

WATER COMMITTEE REPORT
Ronne gave a report on the Water Committee Meeting held August 11, 1981, and reviewed the committee report as distributed.

DEPARTMENT OF WATER RESOURCES - NRD POLICY CONFLICT REGARDING GROUNDWATER RUNOFF
Ronne reported that Rod DeBuhr and Mark Nannen had met with Mike Jess of the Department of Water Resources to discuss possible solutions to the conflicts between the NRD and GWCDs runoff regulations and the State's administration of water rights. Ronne reported that the staff has drafted the following proposed legislative change: "Any person who has constructed a pit in connection with a natural stream for the purpose of reusing groundwater irrigation runoff may collect and reuse such runoff without restriction and shall be exempt from the provisions of Chapter 46, Article 2 provided, (1) that the groundwater irrigation runoff is reused on the land of origin or on land adjacent to the land of origin, (2) that in the judgement of the Department of Water Resources the use of the pit does not interfere with tile administration of the waters of the natural streams which are subject to the provisions of Chapter 46, Article 2, and (3) that the person using the pit has been granted a permit under the provisions of section 46-637." Ronne reported that the committee took action to support the concept of this proposal and directed staff to continue to research the solutions to this situation. Discussion followed.

POLICY DISCUSSION OF TRANSFER OF GROUNDWATER TO NON-OVERLAPPING LANDS
Ronne reported that the committee directed staff to obtain a legal opinion of the first draft proposed regulation concerning transfer of groundwater to non-overlapping lands and to submit the proposal to the GWCDs for their suggestions and opinions on the matter.

WELL PERMITS
Ronne reported that the Department of Water Resources has proposed that the NRDs be solely responsible for the issuance of permits for wells in the control area. This will require amendments to existing statutes. Ronne reported that Committee action was taken to support the proposed legislation to transfer the permit procedure entirely from the State to the NRDs and forward this proposal to the District's Budget, Planning & Legislative Committee for their consideration.

SCS FIELD OFFICE CLERKS
Ronne reported that in accordance with board action taken at the July, 1981, board meeting, the Water Committee took action on the SCS clerks' hours. Ronne stated that the Water Committee recommends to the Executive Committee that the SCS clerk hours be set at 24 hours per week and that the clerk currently working 20 hours remain at 20 hours per week and further that if any District Conservationist feels increased hours are necessary that they come in with a workload analysis to justify the need for the increase.

LAND TREATMENT - L.B. 450 PROGRAM POLICY
Hegeholz reported that recently the NRD received a letter from the Natural Resources Commission asking for comments on the L.B. 450 program. One NRD suggested that the program be amended so that the cost-share rates for the Nebraska Water Conservation Program are the same as the cost-share rates approved by ASCS for the ACP Program. This would result in cost-share rates that would vary among the counties, but because of the law, could not exceed 75% of actual costs. Hegeholz made the motion (Motion #9) that the cost-share rates be the same for all counties and that the current program policy concerning cost-share rates not be changed. Seconded by Burke. BUDGET, PLANNING & LEGISLATIVE COMMITTEE MEETING REPORT
Anderson gave a report on the Budget, Planning & Legislative Committee Meeting held July 9, 1981, and reviewed the committee report as distributed.

NRD INVESTMENTS
Anderson reported that Turnbull reviewed the current investments with the Committee.

FY 82 PROGRAMS BOOKLET
Anderson reported that the FY 82 programs were reviewed, along with the changes necessary for the next fiscal year. Several outdated programs, and those dropped by board action will not be in the FY 82 publication. The programs booklet will be printed about the 1st of August.

ROAD STRUCTURE POLICY
Anderson reported that the Committee had been asked to review the road structure policy. The existing policy states that the County will pay $3,000 plus 30% of the balance. Experience has shown that each site is unique, different size, cost and benefits. It was felt that each project should be evaluated and the cost-sharing be negotiated on a case by case basis. Anderson made the motion (Motion #10) to change the road structure program to read: "The county's share will be determined on a case by case basis. The cost of guard rails or other road safety markings, and the cost of gravel or other surfacing is the county's responsibility. The county is also responsible for any road maintenance on the structure. The District's share will also be determined on a case by case basis. The District is responsible for the maintenance of the structure, except for the road." Seconded by Ehlers. Question called. Motion carried.

MAJOR WATER SUPPLY PROJECT
Anderson reported that the Committee was briefed on the meeting with Steve Seglin, an attorney with Crosby, Guenzel, Davis, Kessner & Kuester of Lincoln. The staff asked his legal advice on the planning efforts on the major water supply project. Items discussed included the legal requirements of filing for permits to obtain water rights involving
trans-basin diversion. It is apparent that the district has considerable work to conduct to comply with the requirements of L.B. 252. Long range strategy was discussed with the Committee and how much progress can be expected in the next twelve months. Engineering concepts for storage were presented for consideration. No action was taken.

EXECUTIVE COMMITTEE MEETING REPORT
Kaiser gave a report on the Executive Committee meeting held July 6, 1981, and reviewed the committee report as distributed.

BUILDING COMMITTEE MEETING REPORT
Hansen gave a report on the Building Committee Meeting held July 14, 1981 and reviewed the committee report as distributed.

TOUR BUILDING SITES
Hansen reported that the committee spent one hour touring the York area looking at approximately ten building sites. Areas looked at were generally along or near Highway 81, North and South of the City of York. Availability and prices were discussed and of course what is the most desirable site for the NRD office location.

PLANS FOR OFFICE
Hansen reported that Turnbull reviewed the planning effort to date. Items discussed were the need for an office building, the size necessary, the possible layout and design, the costs of renting and the availability of suitable rental quarters.

Hansen reported that Turnbull asked for some clear direction from the committee on what to do about office space, to own or rent? Rental rates for office space quoted to the district are in the range of $4.50 to $4.80 a year per square foot for existing space. Higher prices can be expected for new space built and then leased to the district. Rental rates will increase with time.

Bitner presented an economic analysis to the Board of Directors. The analysis addressed the cost of ownership. A rough estimated cost of the necessary land and building was reviewed. The economics over the long term (35 years), using internal rate of return calculations and the value of money, indicates that the cost per square foot per year may be in the range of $4.00.

Hansen made the motion (Motion #17) that Turnbull be directed to pursue planning for a district office building with the intent that the district will own the facility. Seconded by Anderson. Considerable discussion followed. Question called. Motion carried.

EDUCATION COMMITTEE MEETING REPORT  
Hansen gave a report on the Education Committee Meeting held June 4, 1981, at the Teacher Environmental Education Institute at Camp Jefferson in Fairbury and reviewed the committee report as distributed.  
NEWSLETTER EXPANSION  
Hansen reported that the committee and staff discussed the possibility of increasing the newsletter coverage to more households in the NRD. It was felt that the newsletter, inserted in 8 area newspapers, could be a very effective method to reach more people. The newspaper circulation is generally better read and if inserted would replace postage. The newsletter identity is becoming established and therefore the committee recognize the importance of a printer, as opposed to newsprint quality paper. Hansen made the motion (Motion #11) to expand the newsletter from 8,000 copies to 28,500 copies with 8 area newspapers utilized for distribution in place of conventional mailing. Further, the newsletter be printed by York Printing Company quarterly at a cost of $2,754 per quarter or $11,016 per year. Seconded by Schlueter. Discussion followed. Question called. TEACHER ENVIRONMENTAL CAMP
Hansen reported that the Little Blue NRD staff gave a presentation regarding the future status of the Teacher Environmental Camp at Fairbury. This is the 6th annual camp and funding has become a problem, as the Little Blue has carried the largest share of the funding in the past. Everyone agreed that this camp is among the best in the state for quality and credit received. We are asked to share in a more equitable form of funding, organization, and coordination if this camp is continued.

BUDGET, PLANNING & LEGISLATIVE COMMITTEE MEETING REPORT
Anderson gave a report on the Budget, Planning & Legislative Committee meeting held June 10, 1981, and reviewed the committee report as distributed.

FY 82 BUDGET
Anderson reported that Turnbull reviewed the draft of the budget with the Committee. The budget of all three funds, General, Water, and Sinking, are planned to remain within the 7% limit. The budget cannot be completed until after the closing of the FY 81 books in mid-July, and the receipt of the counties final valuations in early August. No final decisions were made on the budget.

NDR OFFICE SPACE
Kaiser reported that Turnbull, Ehlers, Kaiser & Stuhr attended the York County Board meeting on May 12, 1981, and requested the County to add on to the NRD existing facility and lease back the additional space to the NRD on a long term lease. The County Board was also requested to consider selling the NRD part of the fairgrounds parking area for new office space. No action was taken by the County Board at that meeting. Turnbull met with them again on May 19, 1981, to ask for their decision. The County Board does not wish to add on to the existing building or sell part of the fairgrounds parking area. Further, the County Board does not wish to continue to rent to the NRD. The NRD has been given two years to find other office facilities. Kaiser made the motion (Motion #5) to direct the NRD staff to request proposals from architects on planning, design, and preparing specs for a NRD headquarters office building. Further, that proposals be requested on building sites. Seconded by Anderson. Question called. Motion carried.

WATER COMMITTEE MEETING REPORT
Obermier gave a report on the Water Committee Meeting held May 12, 1981, and reviewed the committee report as distributed.

WRITING OF COMPUTER PROGRAMS
Obermier reported that the Water Department hopes to keep and utilize groundwater user records. This is necessary because of the large volume of paper work and time that would be involved were we not able to utilize the computer. In order to use the computer several computer programs will have to be written. An estimate was requested from the University of Nebraska Computer Center for writing programs to (1) sort operators alphabetically, (2) sort irrigated tracts by legal description, and (3) print mailing list of groundwater users. The estimated cost of writing these programs is $2,064.00. Obermier made the motion (Motion #14) that the staff be authorized to proceed with getting the necessary computer programs written for the control area computer records. Seconded by Burke. Question called. Motion carried.

SPRING WATER LEVEL CHANGE AND THREE YEAR AVERAGE DECLINE
Obermier reported that the spring, 1981 water levels were down an average of 1.13 feet from the spring of 1980. The three year average is 1978 - +0.47 feet, 1979 +0.34 feet, 1980 - -1.13 feet for a -0.11 feet average annual change for the past three years. If the change in the water level in 1981 is -0.74 or greater, Rule III of the District's Control Area Rules and Regulations will go into effect. Meters in 1982, allocation in 1983.

Obermier reported that the Blue River Association has billed us for the well measurements in Adams, Butler, Polk and Saline counties. The Association measured 72 wells at $6.00 each for a total cost of $432.00. Since the Board has already approved this expenditure by previous agreement and the bill is less than $1500, no action is required.

EDUCATION COMMITTEE MEETING REPORT
Hansen gave a report on the Education Committee Meeting held May 14, 1981, and reviewed the committee report as distributed.

1981 SUMMER IRRIGATION TOUR
Hansen reported that the Education Committee is planning an irrigation tour concentrating on Southwest Nebraska. This tour is planned at the peak of the irrigation season, as the intent is to view various projects in operation. The dates are set for July 29, 30, and 31, 1981. Highlights will include nine existing reservoirs, six irrigation projects, 1 proposed area of transbasin diversion (Little Blue "Catherland Project"), the Plum Creek Project and the Prairie Bend Project. The tour will be by chartered bus and lodging and transportation costs to participants will be prorated. Hansen made the motion (Motion #14) to accept the 1981 slimmer irrigation tour as proposed. BUDGET, PLANNING & LEGISLATIVE COMMITTEE REPORTS
Stuhr and Turnbull gave a report on the Budget, Planning & Legislative Committee Meetings held February 26, 1981, and March 12, 1981, and reviewed the committee reports as distributed.

MAJOR WATER SUPPLY PROJECT
Turnbull reported that at the February 26, 1981 meeting, a three hour discussion was held concerning the major water supply project. Items considered were (a) water use in Big Blue Basin, (b) Water loss in Big Blue Basin, (c) General plan of storage, (d) General plan of project areas, (e) Economic considerations, (f) Financing schemes - local and state, (g) Political ramifications of plan, and (h) needs. No decisions were reached.

Turnbull reported that at the March 12, 1981 meeting, a long discussion was held concerning the various aspects of the project, including the procedure of filing for water rights. Turnbull met with Mike Jess, Department of Water Resources, on the procedures necessary. The Department of Water Resources advised the district that a public hearing will be held within 180 days of the filing date and that all legal aspects should be prepared for arguments and challenges when the water right is requested. Considerable discussion followed.

Stuhr reported that the committee directed the staff to brief the state senators, as necessary, on the project.

LEGISLATION
Stuhr reported that the committee reviewed the current bill status. L.B. 110, authorizing NRDs to own their headquarters buildings, has been signed by the Governor.

L.B. 120 was discussed by the board. Stuhr made the motion (Motion #3) to support Senator Lamb's position to repeal L.B. 120. Seconded by Ratliff. Question called. Motion carried.

EDUCATION COMMITTEE MEETING REPORT
Burke gave a report on the Education Committee Meeting held March 12, 1981, and reviewed the committee report as distributed.

UPPER BIG BLUE-LITTLE BLUE-LOWER BIG BLUE NRD TEACHER ENVIRONMENTAL CAMP
The joint sponsorship of the 6th Annual Environmental Education Institute will be held the last week of May and first week of June at Camp Jefferson near Fairbury. The purpose of the course is to provide teachers with background and basic information in conservation education. Practical application of the techniques and outdoor experience will enable teachers to incorporate conservation education into new and existing courses in their respective school curriculum. Burke made the motion (motion #12) to provide a $150 grant to six teachers in the district for the 1981 Environmental Education Institute at Camp Jefferson. Seconded by White. Question called. Motion carried.

NRD STAFF PUBLIC MEETING UPDATE
Burke reported that a list of meetings (December, 1980 to present) was given to the Committee members. The list is quite varied and lengthy and does point out that our staff spends a good deal of its workload in preparation and presentation promoting all NRD programs and projects. The staff will continue to expand presentations as space on the calendar permits.

NRD-KAWL YORK RADIO PROGRAM
Staab reported that planning has begun for a weekly 10 minute program to be aired at 5:30 p.m. Saturday. The air time will be donated to the NRD in an effort to expand and promote many issues we are involved in. A daily water crop use announcement is also being planned for the summer growing season.

PARKS, FORESTRY & WILDLIFE COMMITTEE MEETING REPORT
Anderson gave a report on the Parks, Forestry & Wildlife Committee Meeting held March 12, 1981, and reviewed the committee report as distributed.

EXETER PARK
Anderson made the motion (Motion #14) that the Upper Big Blue NRD cost-share with the Village of Exeter on their village park at a sum not to exceed $8,125.00, contingent upon state and federal funds. If the state and federal funds are not released by December 31, 1981, the contract will no longer be binding and in effect. Seconded by Ronne. Question called. Motion carried.

Water Committee Meeting Report
Ronne gave a report on the Water Committee Meeting held March 12, 1981, and reviewed the committee report as distributed.

Discussion of Allocation Variation According to Rainfall Differences
Ronne reported that the precipitation data and patterns over the district were reviewed. The committee felt that this information did not cause for variation in allocation at this time and instructed the staff to file this information for future reference in case circumstances change.

1980 Irrigation Scheduling Program
Ronne made the motion (Motion #16) that the NRD pay the balance due of $3,294.04 to the Blue River Association of Groundwater Conservation Districts for the 1980 Irrigation Scheduling Program. Seconded by Obermier. Question called. Motion carried.

SCS REPORT
Ray Griffin, Liaison D.C., introduced Wayne Vanek, Soil Scientist, Hamilton County SCS. Roger Hammer, Clay County SCS, gave a progress report on the soil surveys being conducted in Fillmore, Saline and Hamilton Counties. The soil survey in Fillmore County is 55% complete (59% of the area in the Upper Big Blue NRD). The completion date for Fillmore county is set for November, 1982. The Saline County Soil survey is 38.9% complete (95% of the area in the Upper Big Blue NRD). 84% of the Hamilton County Soil Survey is completed. The final Clay County Soil Survey report should be released sometime this year.

BUDGET, PLANNING & LEGISLATIVE COMMITTEE REPORT
Stuhr gave a report on the Budget, Planning & Legislative Committee Meeting held February 11, 1981, and reviewed the committee report as distributed.

SIX MONTH BUDGET REVIEW
Turnbull reviewed the cash position for each fund as of December 31, 1980.

MAJOR WATER SUPPLY PROJECT
Stuhr reported that Bitner briefed the committee on the staff's work and findings of the past 30 days. Bitner reviewed the data on the water budget of the Big Blue Basin - inflows, outflows, pumping, recharge, precipitation, etc. The Blue River Compact with Kansas was reviewed. It appears that the project the district envisions will work within the requirements of the Compact. The planning is proceeding rapidly. General information on the planning mechanism, and the district's views has been released to the public.

LEGISLATION
Stuhr reported that legislative bills were reviewed but no action was taken on any legislative proposals.

CITY OF YORK PRESENTATION
Joe Finn, City Planning Commission Member, presented the Board of Directors with the 1980 Comprehensive Plan for the City of York. This is a 20 year plan and shows the progress up to this date along with the growth anticipated in the York area. Jack Kidder, City Administrator, briefly reviewed the Comprehensive Plan.

EXECUTIVE COMMITTEE REPORT
Kaiser gave a report on the Executive Committee Meetings held January 22, 1981, and February 11, 1981, and reviewed the committee reports as distributed.

LEGISLATIVE HEARINGS
Kaiser reported that the Committee directed Ehlers to testify in support of L.B. 81 at the Public Works Committee hearing on January 28, 1981. The Committee also directed Turnbull to testify in support of L.B. 110 at the Public Works Committee hearing on February 4, 1981. Moore testified in support of L.B. 110 as Turnbull had a conflict.

BOARD COMMITTEE ASSIGNMENTS
Kaiser made the motion (Motion #2) that the 1981 Committee assignments be approved as set up by the Executive Committee. Seconded by Ehlers. Question called. Motion carried.

BOARD POLICY CHANGE
Kaiser reported that the committee discussed the problem of handling policy issues. It is felt that at times after due committee and staff considerations, the Board needs time to think about the proposed change. Kaiser made the motion (Motion #3) that the Board of Directors adopt the policy that if requested by any board member, any proposed district policy change be held over to the next regular board meeting after its initial presentation for action. Seconded by Ronne. Question called. Motion carried.

NARD WASHINGTON D.C. CONGRESSIONAL TRIP
Kaiser reported that the Committee discussed the possibility of the NARD sending, at its expense, the Association officers on the Washington D.C. trip. In the past this district has financed the NARD treasurer's travel, etc. It is felt that all the NRDs should share in the expense of sending the Association officers. Kaiser made the motion (Motion #4) to send Larry Moore, Roy Stuhr, and John Turnbull on the NARD Washington D.C. trip to represent the District, and further, that Burke be sent at the NARD's expense to represent the Association, with the District paying Burke's per diem and meals. Seconded by Ehlers. Considerable discussion followed. Stuhr amended motion #4 to make the motion (Motion #5) to include lodging as being paid by the District. Seconded by Ehlers. Question called on the amendment. Amendment carried.

NARD CONFERENCE EXPENSES
Kaiser reported that the committee expressed concern about the apparent high cost of NARD conferences, registration, meals, receptions, etc. The Committee is interested in the expenses versus the revenues of these activities. The District will request the NARD to furnish a cost accounting (cost vs. revenues in detail) for recent conferences.

OFFICE SPACE
Kaiser reported that after discussion on L.B. 110, the Committee felt it important to proceed with planning of office space. The need to hire a qualified architect to design the building (either for rent or purchase) was expressed. This is necessary to have the offices and work areas layed out for maximum efficiency. The drafting of the plans is of secondary importance. It was suggested to contact the University of Nebraska Architect Department for possible assistance. Kaiser made the motion (Motion #7) that the district proceed with design and cost estimating of the district needed office space. Seconded by Burke. Question called. Motion carried.

WATER COMMITTEE REPORT
White gave a report on the Water Committee Meeting held February 12, 1981, and reviewed the committee report as distributed.

HWS CONFINED AQUIFER STUDY
White reported that Roy Elliot and Gary Morgan of Hoskins-Western-Sonderegger submitted a confined aquifer study proposal. The proposal outlines the procedure and approximate cost for conducting a study of confined aquifer where carrying capacity of the aquifer is insufficient to sustain present irrigation and determine the optimum use of the available water supply. The pilot study proposed would cover an area of the NRD's choice, approximately 3,500 acres in size (51 square miles) and would cost approximately $25,490. Because of budget limitations and the site specific nature of this type of study, the Committee directed staff to inform HWS that the district does not wish to pursue this study proposal.

1981 IRRIGATION SCHEDULING PROGRAM AGREEMENT
White reported that the 1981 Irrigation Scheduling Program will be essentially the same as in past years with the cost to the irrigator being raised from $40 to $50 with the remaining cost split of one-half to the NRD and one-half to the GWCDs. The NRD will pay all of the remaining cost in Adams, Butler, Saline and Polk counties. White made the motion (Motion #18) that the agreement with the Blue River Association for the 1981 Irrigation Scheduling Program be approved as reviewed. Seconded by Burke.

1981 WELL MONITORING PROGRAM AGREEMENT
White reported that the proposed agreement provides for a payment of $6.00 per well for each well measurement. This is only for approximately 75 wells in Adams, Butler, Polk, and Saline counties. The Blue River Association will pay the entire cost of the well measurement in the remainder of the NRD area. The estimated cost to the NRD for 1981 spring and fall readings is $900.00. White made the motion (Motion #19) that the 1981 Well Monitoring Program Agreement with the Blue River Association be approved as reviewed. Seconded by Burke. Question called. Motion carried.

REPLACEMENT WELL PUMP COLUMN SITUATION
White reported that staff had resolved the discrepancies on the pump column size situations which the committee discussed the previous month. Several well drillers and one manufacturer of pump column were contacted to find out why there were different pump column sizes such as 8 inch and 8-5/8 inch, etc. The industry has standardized the column sizes and 8 inch column is a layman's term for 8-5/8" O.D. column. White made the motion (Motion #20) that the Board of Directors adopt the policy of one (1) inch maximum tolerance on pump column size for replacement wells without requiring a permit. Seconded by Ehlers. Question called. Motion carried.

SCS REPORT

Larry Farris, Clay County SCS District Conservationist, reported that Clarence Schmidt, SCS Technician for Seward County, retired. Farris also reported that Wayne Vanek, Soil Scientist, from Ord, has been named to replace Bob Pollock, Soil Scientist in Aurora. The SCS quarterly reports were distributed. Farris noted that an error had been made in the feet of terraces constructed in Seward County. The report should read 37,860 feet instead of 7,860. Farris stated that Clay County SCS has hail an excellent construction season due to the good weather.

Farris distributed handouts to accompany his slide presentation on Drip Irrigation Systems for Trees.

Bill Gilliam, York County SCS District Conservationist, gave York County Soil Surveys to the new directors.

Hegeholz made the motion (Motion #11) that a letter be sent to Robert Foster, Area Conservationist, Grand Island, and A.E. Sullivan, State Conservationist, recommending that Ed Soucek replace Clarence Schmidt as SCS Technician in the Seward County Office. Seconded by White. Soucek is presently employed at the Saline County SCS Office. Discussion followed. Question called. Motion carried.

BUDGET, PLANNING & LEGISLATIVE COMMITTEE REPORT

Stuhr gave a report on the Budget, Planning and Legislative Committee Meeting held January 14, 1981, and reviewed the committee report as distributed.

DIRECT GROUNDWATER RECHARGE

Stuhr reported that Gary Lewis, Henningson, Durham & Richardson, presented a possible approach for groundwater recharge and asked that his firm be considered as a consultant for the project should the district pursue it. Mr. Lewis pointed out that HDR's concept calls for a major direct groundwater recharge project to be built in this basin. Methods utilized might well be injection wells on a massive scale, however such a scheme cannot be economically justified. Mr. Lewis suggested that a project of this nature.
might be funded by the federal government on a grant basis as a demonstration project, but it would take a great deal of work to acquire such a grant.

NNRC REPORT
Ervin Lechner, Nebraska Natural Resources Commission Member, and the Board of Directors held a discussion on the possible creation of the position of Executive Coordinator by Governor Thone. This position would coordinate efforts of the Governor, Nebraska Natural Resources Commission, the Department of Environmental Control, and the Department of Water Resources. The responsibilities of this position, it's necessity, and the method of personnel selection were discussed. Ratliff made the motion (Motion #15) that the Board of Directors go on record as opposing the creation of the position of Executive Coordinator between the Governor's office, the Nebraska Natural Resources Commission, the Department of Environmental Control and the Department of Water Resources pending further clarification. Seconded by Ehlers. Question called. Motion carried.

Ervin Lechner, NNRC member, reported on the L.B. 450 Nebraska Water Conservation Program. Lechner explained some of the problems being experienced with the districts expending apportioned funds. The Commission is asking that unobligated funds be returned to them for redistribution in the 9th month period instead of waiting until the end of the year. Bitner stated he felt the Commission should require the practices be completed within ninety days instead of nine months to avoid large obligated balances that have not been expended at the end of the year.
Lechner reported on the Resources Development Funding as proposed by the Governor and the requirements. Approximately $7.8 million is being requested by the Natural Resources Commission for projects and obligations in 1981. The Governor has proposed, in his trade off for cigarette tax monies, to cut the budget to approximately $3.5 million. Lechner said the Commission cannot carry out their obligations to the NRDs with this amount. White made the motion (motion #16) to draft a letter to the Governor and to the Legislative Committee Members indicating support for adequate Natural Resources Commission funding as in the FY 82 budget request. FALL WATER LEVELS
Obermier reported maps showing average water level changes for each township in the NRD were reviewed. The average change over the entire district was a rise of 1.94 feet.

STRUEBING DAM WATER RIGHTS
Obermier reported since the last time the committee discussed this topic the staff has spoken with all the interested parties. It appears that Richard Struebing is the only landowner who is seriously interested in using water from the reservoir. John Klosterman did express interest earlier but has since decided the water supply would be too unreliable on his property to justify the expense in setting up to use it. Staff is preparing a contract for Mr. Struebing and will bring it to the board as soon as Mr. Struebing is ready.

REQUEST TO CONSIDER CHANGE IN CONTROL AREA RULES
Obermier reported that the committee discussed a proposal by Merlin Volkmer to change the control area rules to reflect some allowance for the increased number of wells in the district. This proposal was presented to the board for their consideration at a later date.

WATER CONSERVATION WORKSHOPS, SEMINARS & FIELD DAYS
Andersen reported topics for water conservation with regard to potential workshops, seminars and field days were discussed. Seventeen topics were evaluated and ranked according to committee member preference with consideration given to landowner and irrigator needs. Although all the topics are worthy, the joint committee selected the following areas that will be stressed: (1) conservation tillage, (2) cropping systems, (3) fertilizer use and total management, (4) chemical injection through pivots, (5) better results with gated pipe, (6) tailwater reuse systems, (7) irrigation scheduling, moisture blocks, tensiometers, (8) pumping plant efficiency, (9) crop water use program, and (10) SCS irrigation target program. Some of these topics can be combined and the intent is to work closely with the SCS and county Extension Agents. Andersen made the motion (Motion #11) that two workshops be held in the Eastern and Western portion of the district (possibly in the Utica and Sutton areas) in late February or early March with follow up field days in the summer. Cooperators will be secured to help demonstrate the conservation practices. Seconded by Obermier. Question called. Motion carried.

PLATTE RIVER FORUM FOR THE FUTURE
Bitner briefed the board on the one week session held in Grand Island the first week of August, 1982. He explained that a working computer model of the Platte River was developed by the 41 participants, shadow team and head team (Fish & Wildlife group from Fort Collins, Colorado). The participants represented the many different viewpoints about the River and its uses.

No trial runs with projected projects were run on the model because some members of the
group felt it may show some projects are not as technically and economically acceptable as others.

A five member technical review committee has been established to review any proposed changes to the model. It has not yet been determined as to where the model will be housed.

Burke made the motion (Motion #3) to direct John Turnbull to work with other interested parties, that is the Bureau of Reclamation, Tri-County, Platte River Trust and others to explore alternatives to the five man committee that has been proposed. Seconded by Ehlers. Question called. Motion carried.

NRD OFFICE BUILDING FINANCING & LEASE DOCUMENTS
Regier made the motion (Motion #2) to adopt the following resolution:

BE IT RESOLVED by the Board of Directors of the Upper Big Blue Natural Resources District, in the State of Nebraska as follows:

1. The Board of Directors hereby determines that the District is in need of a facility for its administrative offices; that Upper Big Blue Natural Resources District Building Corporation has been formed under the Nebraska nonprofit corporation laws for the purpose of acquiring a building and leasing the same to the District and has offered to enter into a Lease Agreement with the District whereby the District may lease such building as authorized by Section 2-3233, R.R.S. Neb. 1943; that the documents necessary for the
transaction have been prepared and said documents should be approved and their execution authorized.

2. The District shall enter into a Lease Agreement with Upper Big Blue Natural Resources District Building Corporation whereby said corporation will acquire the following described real estate:

    Lots Four (4) and Five (5), Block Ninety-six (96), Original Town, now City of York, as surveyed, platted and recorded in York County, Nebraska,

and lease said real estate, including the office building located thereon, to the District and that the Lease Agreement in the form presented to this meeting be and hereby is approved.

3. The Chairman and Secretary of the Board of Directors be and they hereby are authorized and directed to execute and deliver on behalf of the District said Lease Agreement, including necessary counterparts, in substantially the form and content as presented to this meeting, with such changes or modifications therein as to them seem necessary, desirable or appropriate for and on behalf of the District and said Chairman and Secretary are further authorized and directed to execute and deliver any other documents or certificates and do all other things necessary or appropriate to carry out such transaction.

4. The Board of Directors does hereby approve the formation of Upper Big Blue Natural Resources District Building Corporation, including the Articles of Incorporation and Bylaws thereof and the three directors thereof and further approves the execution and delivery by said corporation of its Promissory Notes to the First National Bank of York and York State Bank & Trust Co. in the principal amount of $210,000, bearing interest at 12% per annum, which Promissory Notes are to be dated as of the same date as the date of execution of the Lease Agreement above referred to and the Board of Directors further approves the Mortgage, Assignment and Security Agreement which is to be executed and delivered in connection with the issuance of said Promissory Notes to said banks.

5. The Board of Directors hereby declares that it is its intention to exercise the options provided for in said Lease Agreement and to take title to the real estate at the end of the term provided for in the Lease Agreement and further declares that it is the Board's intention to exercise the options provided for in said Lease Agreement and to take title to the real estate at the end of the term provided for in the Lease Agreement and further declares that it is the Board's intention to provide for the rentals payable under the Lease Agreement from year to year in the annual budget of the District.
6. The Board of Directors hereby states that it is the intention of the Board of Directors that the interest on the $210,000 of Promissory Notes issued by Upper Big Blue Natural Resources District Building Corporation shall be excludable from gross income under the federal income tax by virtue of Section 103(a)(1) of the Internal Revenue Code of 1954, as amended, and Revenue Ruling 63-20 issued thereunder, and the Chairman and Secretary of the Board are hereby authorized to take all actions necessary or appropriate to carry out said intention and obtain interest exclusion.

7. This resolution shall be in full force and effect from and after its passage as provided by law.

FY 82 WATER DEPARTMENT BUDGET
Obermier reported that the staff's draft of the FY 83 Water Department Budget was reviewed. The Committee questioned budgeting for remodeling of the new office for an upstairs meeting room and handicapped access. $15,000 was in the Control Area Budget for
this remodeling. Obermier reported the Water Committee recommends to the Budget Committee that no remodeling be done to the new office building during FY 83 and that no money be budgeted for that purpose. Obermier stated the Water Committee is forwarding the remainder of the proposed budget to the Budget Committee for their review and consideration.

**AGREEMENT TO SHARE LEGAL EXPENSES & COURT COSTS FOR RUNOFF VIOLATIONS**

Obermier reported the committee discussed how the legal expenses and court costs for runoff violations should be shared with the Blue River Association of GWCDs if a runoff violation should go to court. The committee indicated they felt a 50-50 split would be fair. An agreement will not be signed unless the need arises.

**GROUNDWATER USE COMMENDATION RESOLUTION**

Obermier made the motion (Motion #3) to adopt the following commendation resolution and that copies of this resolution be distributed to all area newspapers and the district's newsletter as a matter of publicizing this resolution.

WHEREAS, the rate of decline of the groundwater table in the area of the Upper Big Blue Natural Resources District has been one-half foot per year over the past 30 years; and

WHEREAS, the amount of land developed for groundwater irrigation has increased dramatically in the past 30 years; and

WHEREAS, the total demand for all types of groundwater usage has been ever increasing; and

WHEREAS, the groundwater user has been forced by economic conditions to make maximum usage of the area's groundwater resources;

NOW THEREFORE BE IT RESOLVED that the Board of Directors of the Upper Big Blue Natural Resources District commends the groundwater users of this area for wise and prudent usage of our valuable groundwater resources over the past three years in holding the average groundwater level decline to less than one half of the average decline over the past 30 years.

Seconded by Regier. Question called. Motion carried.

**L.B. 450 PROGRAM - FY83**

Ehlers made the motion (Motion #6) that the list of practices to be cost-shared by the Nebraska Water Conservation Fund remain the same as last year and include (1) terrace systems, (2) terrace outlets, (3) water impoundment dams, (4) Grade stabilization structures and (5) irrigation reuse pits. Seconded by Hansen. Question called. Motion
N RD LAND TREATMENT PROGRAM – REUSE PITS

Ehlers made the motion (Motion #7) that a program for rebuilding reuse pits be implemented in FY 83. Reuse pits will be eligible at any time SCS determines that the need for rebuilding exists. The cost-share rate shall be 50 percent of county average cost until such time as the pit life exceeds design life. The first year of the program shall be budgeted as a special project in the amount of $10,000. Seconded by White. Considerable discussion followed. Regier amended the motion to make the motion (Motion #8) that the sentences "Reuse pits will be eligible at any time SCS determines that the need for rebuilding exists. The cost-share rate shall be 50 percent of county average cost until such time as the pit life exceeds design life." be deleted. Seconded by Stuhr. Question called on the amendment. Amendment carried.

EDUCATION COMMITTEE REPORT
Andersen gave a report on the Education Committee meeting held June 8, 1982, and reviewed the committee report as distributed.

CONSERVATION AWARDS FARM SELECTIONS FOR 1982
Andersen reported that the Butler County and Fillmore County award farms have been chosen. The selections for 1982 are now complete.

NATIONAL MINIMUM TILLAGE CONTEST
Andersen reported the National Corn Growers Association is sponsoring a new "No-Till" classification for the 1982 corn yield contest. The Association is emphasizing that "corn farmers must take the lead in developing new production techniques under reduced tillage conditions". Andersen said the committee feels this concept is a good idea, but due to the unusual spring in Nebraska this contest should be promoted next year as it is too late for involvement this planting season.

PROPOSED OPEN HOUSE FOR NRD OFFICE BUILDING
Andersen reported this idea was discussed at length and the committee decided this could have merit. The open house would hopefully help citizens become more aware of our work and responsibilities and also would serve notice that we have changed our office location. The committee has tentatively selected the dates September 9, 10, and 11, 1982, during the fall Yorkfest.

NARD DIRECTORS' SEMINAR
The NARD will be holding seminars for newly elected directors on November 29, 1982 in Lincoln and November 30, 1982 in North Platte. These seminars will provide an excellent opportunity for directors to become better informed. The committee felt funding from our NRD should be kept minimal if our directors participate.

FY 83 BUDGET REVIEW
Andersen reported the FY 83 Education Department budget was reviewed by the committee and forwarded to the Budget committee for their consideration and review.

EXECUTIVE COMMITTEE REPORT
Regier gave a report on the Executive Committee meeting held June 10, 1982, and reviewed the committee report as distributed.

SALINE COUNTY SOIL SURVEY
Regier made the motion (Motion #14) that Amendment No. 6 to the Master Cooperative Agreement between Saline County, Lower Big Blue NRD, Upper Big Blue NRD, University of Nebraska, and the Soil Conservation Service be approved for the continuation of the Saline County Soil Survey and to agree to pay $790 during FY 83 for that survey. BUDGETS
Regier reported both the General Administration and the office budgets were reviewed by the Committee. The committee directed that costs be obtained from a local contractor on remodeling the new building, such remodeling to include removing the wall in the boardroom and building a front stairway. Those costs estimates should be budgeted.
budgets were forwarded to the Budget Committee with minor changes.

**VEHICLE MAINTENANCE**

Regier reported the committee asked the staff to solicit bids for the maintenance of our vehicle fleet. The bids should be for an hourly rate and a parts discount for the maintenance of the fleet.

**BOARD AND CONFERENCE ROOM FURNITURE**

Regier reported the committee tried out several styles of chairs for the board and conference room. It was recommended that the district set up a permanent board room. Initially it is felt that the district should use folding tables for a board table, but that comfortable chairs should be purchased as soon as possible. Staff suggested the district purchase 20 board room chairs and 12 conference room chairs at the same time as the price per chair is best when large quantities are bought. Regier made the motion (Motion #16) that the General Manager be authorized to purchase 20 board room chairs and 12 conference room chairs for a price not to exceed $8,300 including tax and freight. Seconded by Peters. Considerable discussion followed on the various prices and styles of chairs. Question called. Motion carried.

**ANNUAL SALARY REVIEW - COST OF LIVING INCREASE**

Regier reported that even though the consumer price index has risen 6.5% from May of 1981 through May of 1982, the manager recommended to the committee that no cost of living change for FY 83 be granted because of (1) the current economic conditions, (2) the inflation rate is less than the previous year's rate of 10% and (3) the district is faced with a major office building expense. Regier made the motion (Motion #17) that no cost of living increase be granted for FY 83. Seconded by Ronne. Question called. Motion carried.

**OFFICE BUILDING FINANCING**

Turnbull reported that the Chairman, Treasurer, District Attorney, Bond Counsel, and representatives from the two banks in York met to discuss financing the new office building. Turnbull reviewed the terms offered by the 1st National Bank of York and the York State Bank. Considerable discussion followed on borrowing the money for the office building versus paying cash from present investments. Obermier made the motion (Motion #19) to pay cash for the new administrative office building from current investments in the sinking fund set aside for School Creek Site V. Seconded by Volkmer. The legality of expending sinking fund money for a general fund expenditure was discussed. Possible cash flow problems were also considered. Ratliff amended the motion to make the motion (Motion #20) to add the phrase "after proper legal accounting information is received" to the original motion and further add the sentence "If this procedure is not found in proper accounting order the money will be borrowed under the proposed financing terms with the 1st National Bank of York and York State Bank." Seconded by Anderson. Question called on the amendment. Amendment carried.

HENDERSON RECORDER WELL
Turnbull reported that on April 16 and 17, 1982, Henderson Irrigation drilled the new Henderson Recorder Well. The drilling was supervised by Jerry Svoboda of the UN-L Conservation and Survey Division. The estimated cost of drilling and casing this well was $1,400.00. Henderson Irrigation has submitted a bill of $1,340.00. Volkmer made the motion (Motion #14) that payment of $1,340.00 be made to Henderson Irrigation for drilling and casing the new Henderson Recorder Well. Seconded by Ronne. Question called. Motion carried.

ADDITIONAL BUSINESS
Moore reported that the election materials have been distributed for those directors up for re-election this fall.

Turnbull reported that the staff met with the Nebraska Natural Resources Commission on April 28, 1982 concerning funding for the School Creek Site #3 Project. Due to higher land rights costs than expected the project had a negative rate of return. Based on this negative return the Commission informed the district that no further expenditures of State funds would be allowed until we can show a favorable economic analysis.

Meeting adjourned at 11:25 p.m.

**BUILDING COMMITTEE MEETING REPORT**

Turnbull and Hansen gave a report on the Building Committee Meeting held April 7, 1982, and reviewed the committee report as distributed.

**FINANCING OF BUILDING**

Turnbull reported on a series of meetings he has had with the local banks and the Municipal and Government Board Division of the 1st National Bank of Lincoln. He also has had discussions with Steve Seglin, an attorney, and Richard Pederson, a Bond Counsel from Omaha. The consensus of those conferred with is that a nonprofit corporation, formed to build and own the building, finance it with bonds, with a lease back to the District, is the best method of financing the building and protecting the interests of all involved. Turnbull presented a Resolution to the board that would authorize the formation of such non-profit corporation.

Bill Warner of the Municipal and Government Board Division of the 1st National Bank of Lincoln briefed the Board on the bond process and the function of the non-profit corporation. The various bonding fees were discussed in detail.

Hansen made the motion (Motion #1) that the following Resolution be adopted:

**WHEREAS,** the District is desirous of constructing a new administrative office; and

WHEREAS, a tract of land has previously been purchased as a site for such office, and

WHEREAS, the District has out for bids a contract for the construction of such office; and

WHEREAS, the District desires to provide for the financing and construction of such office; and

WHEREAS, the District desires to provide for the financing of such office by forming a
non-profit corporation which will issue bonds, the proceeds of which will be used to purchase the land from the District, construct such offices and pay for other necessary expenses in connection with the financing.

NOW THEREFORE BE IT RESOLVED:

(1) That the District hereby assigns its interest in the low bid and all of its rights in the construction contract documents to a non-profit corporation which will be formed for the purpose of issuing bonds and owning the land and office building.

(2) That the Manager is hereby authorized to contact the low bidder for the purpose of obtaining from him his consent of the assignment to the non-profit corporation and to further obtain from him his extension of time to accept the bid and his consent that the non-profit corporation can accept the bid subject to satisfactory financing be made available.

(3) That the District hereby employs Richard Pederson of the Baird 'Law Firm of Omaha, Nebraska, as its bond counsel in connection with the formation of the non-profit corporation and the issuance and placement of the bonds at interest not to exceed 12 percent (12%), and hereby authorizes that he be paid a fee in the approximate amount of one percent (1%) of the amount of the bond issue, if needed.

(4) That the District hereby designates the First National Bank of Lincoln as its underwriter for the placement of the bonds and hereby authorizes that a fee be paid to them up to three percent (3%) of the bond issue if such Bank places the bonds.

(5) That the Manager of the District is hereby authorized to negotiate the placement of such bonds with local financial institutions if possible and if not possible to work with the First National Bank of Lincoln to place such bonds.

(6) That the Manager of the District, its Chairman and regular legal counsel are hereby authorized to do all things necessary to facilitate and accomplish the tasks authorized in this resolution to the end and that the construction and financing of such administrative office is accomplished.

Seconded by Ronne. Discussion followed.

Kaiser amended the motion to make the motion (Motion #2) to delete paragraph (2) of the Resolution. Seconded by Ratliff.

Ehlers made the motion (motion #3) to table the motion as amended until further discussion is held on the building plans and contracts later in the meeting. Seconded by Volkmer.

Stuhr rose to a point of order questioning the procedure of tabling an amendment. Ehlers withdrew his motion.

WATER COMMITTEE MEETING REPORT
Obermier gave a report on the Water Committee meeting held April 13, 1982, and reviewed the committee report as distributed.

MUNICIPAL WATER USE FOLLOW UP
Obermier reported that the 21 towns that did not report water use previously were contacted by letter. Out of the 21 seven responded in some fashion. The Committee directed the staff to contact the remaining 14 towns by phone to find out why the water use data was not available and if several of the towns even had municipal water supplies.

VIVIAN E. ANDERSON - LATE PERMIT
Obermier reported that Vivian E. Anderson had a well drilled by Levi Friesen an May 28, 1980. The pump was installed by Wall Irrigation. The well driller apparently thought that this was to be a replacement well, but Mrs. Anderson wants to keep the old well. Mr. and Mrs. Anderson live in Lincoln and their land is farmed by Ron Baker of Stromsburg. They have paid their late permit fee. Obermier made the motion (Motion #16) that the late permit of Vivian E. Anderson be approved. Seconded by Hansen. Question called. Motion carried.

The Polk SCS office will be hosting County Government Day at Osceola with students from four high schools visiting their office.

BUILDING COMMITTEE MEETING REPORT
Hansen gave a report on the Building Committee held February 25, 1982, and reviewed the committee report as distributed.

FINANCING
Hansen reported that staff has contacted the First National Bank of Lincoln about bonds, and the First National Bank of York about a 15 year mortgage. No solutions have yet been found.

REVIEW OF FINAL DESIGN
Hansen reported that Eugene Griffiths and Al Kam, architects, reviewed the final building drawings with the committee. Several small adjustments were made in the design.

INTERIOR DECORATING
Hansen reported that a separate contract for interior decorating will be let for the NRD building. The architect showed the committee samples of the carpets, drapes and wall coverings.

**MAIN CONTRACT BID OPENING**

The bid opening has been rescheduled for March 31, 1982. To date 22 general contractors, 9 mechanical contractors and 11 electrical contractors have picked up plans. A special board meeting has been scheduled for April 8, 1982, to award contract.

**ARCHITECT'S PAYMENT**

Hansen made the motion (Motion #2) to approve payment of $8,046.01 to Eugene Griffiths Company for architectural services from February 10, 1982 through February 24, 1982. Seconded by Anderson. **1981 BLUE RIVER ASSOCIATION SCHEDULING REPORT**

Obermier reported that Mark Nannen, Manager of the Association, reviewed the 1981 scheduling report with the committee.

**MUNICIPAL GROUNDWATER USE REPORT**

The annual municipal groundwater use report was reviewed. Several cities and towns failed to report their water use to the district. Many of the smaller towns in the district do not meter their water so have no way of knowing how much they pumped. Staff was asked to try again to encourage the municipalities to report.

**DEVELOPMENT SURVEY UPDATE**

Obermier reported that 108 wells were drilled in 1981 in the Upper Big Blue NRD. The number of wells drilled was low in comparison of the past 10 years. of the 108 wells drilled, 59 (54%) responded to our request for information about the new irrigation system. Of those responding, 52 were new wells and 7 were replacement wells. The 59 wells reporting in the survey irrigated a total of approximately 7,230 acres. Of that total, 3,042 was previously irrigated by another well and 4,188 acres was new irrigation. 27% of the irrigation systems were gravity systems, 70% were center pivots, and 3% were other types.

The board of directors recessed for lunch at 12:00 noon.

Meeting reconvened at 1:12 p.m.

**EDUCATION COMMITTEE MEETING REPORT**

Andersen gave a report on the Education Committee Meeting held March 9, 1982, and reviewed the committee report as distributed.
1982 SOIL STEWARDSHIP WEEK
The week of May 16-23, 1982 has been designated Resources Stewardship Week by the National Association of Conservation Districts. Andersen made the motion (Motion #4) that the NRD participate in Soil Stewardship Week by providing inserts free of charge for church bulletins not to exceed $200.00. Seconded by Anderson. Question called. Motion carried.

NRD DIRECTORS AND STAFF "IN-SERVICE WORKSHOP"
Andersen reported the possibility of some type of workshop to help increase -individual "communications ability" was discussed. This could take the form of a half-day, daylong, or a series of workshops. The University of Nebraska-Lincoln, Division of Continuing Studies does provide service of this kind. The staff will pursue this idea further regarding fees and workshop content.

WATER PROJECT FILM DOCUMENTARY WITH TRI-COUNTY, HABITAT TRUST AND NRD
Andersen reported the film documentary idea was discussed at length. The purpose of the film is to tell our story with Tri-County and the Trust. The program would generally serve our public relations effort until a Platte River Diversion Permit is obtained. The Conserve Nebraska Foundation has submitted a quote for a 15 minute video tape. The quote and concept were discussed.

CHAMBERS OF COMMERCE MEMBERSHIPS

BUDGET, PLANNING & LEGISLATIVE COMMITTEE MEETING REPORT Stuhr gave a report on the Budget, Planning & Legislative Committee Meeting held March 11, 1982, and reviewed the committee report as distributed.

TWIN VALLEY WATER RIGHT HEARING
Stuhr reported the Twin Valley hearing is scheduled for April 13, 1982. The data available on the Twin Valley filing for Platte River water was reviewed. Since the project will have an affect on the Big Blue Irrigation Project water rights, the committee feels it is imperative to participate in the hearing to protect our interests. Stuhr made the motion
(Motion #8) that the District request to be made a party to the Twin Valley Hearing scheduled for April 13, 1982. (In the Matter of Applications 15974, 15975, 15976, 15977, 15978, 15979, 15980, 15981 and 15983 for Permits to Store Water from Elm Creek; Application 15984 for a Permit to Divert Water from the Twin Valley Reservoirs; and Application 15985 for a Permit to Divert Water from the Platte River for Irrigation.) AIRPORT LAYOUT PLAN - YORK, NEBRASKA

Stuhr made the motion (Motion #9) that the Upper Big Blue NRD has reviewed the airport layout plan of the City dated May, 1981, and finds the plan is consistent with, compatible to and not in conflict with the District's goals, policies and long range plans, except for replacement of shelterbelt trees, mitigation of wetland, should it be filled, and canal easement consideration for the NRD's Big Blue Irrigation Project. Seconded by Regier. Discussion followed. Stuhr amended the motion to make the motion (Motion #10) to replace the words "and canal easement consideration" with "a canal easement be given, if requested". Amendment carried. Seconded by Ehlers. Question called on the amendment.

DRAFT BILL ON ASSESSING MONETARY FEE OR CHARGE FOR GROUNDWATER RECHARGE

Stuhr reported that the committee reviewed a draft bill prepared by Dave Aiken for the Central Platte NRD concerning a water use fee for groundwater recharge. The committee feels the District should consider such a measure for a revenue mechanism for the Big Blue Irrigation Project, under the philosophy that any who receive project benefits should pay a portion of the costs. The staff has been instructed to continue to work with the Central Platte NRD and others on the groundwater recharge revenue proposal, not from a position of support or opposition, but rather in order to follow the development of the proposal.

INDUCED RECHARGE

Stuhr reported the Central Platte NRD has also drafted a bill to allow for a water right for induced recharge, that is, city well fields in the Platte Valley using Platte River water. The committee directed the staff to follow the development of the induced recharge proposal.

BUDGET, PLANNING & LEGISLATIVE COMMITTEE REPORT
Stuhr gave a report on the Budget, Planning & Legislative Committee Meeting held February 11, 1982, and reviewed the report as distributed.

PLATTE RIVER WATER RIGHTS
Stuhr reported that the District has been advised that three water rights hearings are to be held in the near future. (1) Twin Valley (to start in April, 1982), (2) Twin Platte, and (3) Upper Big Blue, et al. The possible strategies and the District's position on the Twin Valley and Twin Platte filings were discussed. No conclusion was reached on the Twin Valley filing.

CONFLICT RESOLUTION STUDY
Stuhr reported that the Nebraska, Natural Resources Commission's Conflict Study for the Platte River was discussed. The Natural Resources Commission staff has suggested, at the recent South Platte River Compact Meeting, that interested districts pay a portion of the initial $135,000 needed for the conflict resolution process. Stuhr made the motion (motion #2) that the District cooperate in the Nebraska Natural Resources Commission's Platte River Conflict Resolution Study and further to pay a proportionate share of the costs with the other NRDs. Seconded by Burke. Considerable discussion followed on what the District's share would be. Ronne amended the motion to make the motion (Motion #3) that the

LEGISLATIVE BILL 850

Stuhr reported L.B. 850 adds several new categories of uses to the preference system for both surface and ground water. This would apply to water rights perfected after L.B. 850 becomes law. The new order of preference would be (1) domestic and municipal domestic, (2) agricultural purposes, (3) manufacturing purposes, (4) municipal nondomestic, and (5) high volume industrial. This bill also provides that a superior right must compensate an inferior right for the taking of its water. (a) domestic and domestic municipal are defined as water used for human need including health, fire, control, sanitation and domestic livestock, (b) agricultural is defined as irrigation, livestock watering and other farm or ranch operations which are not domestic, ©) manufacturing is defined as commercial, industrial or manufacturing uses consuming less than 3,000 acre feet per year, (d) municipal non-domestic uses are all uses supplied by a municipal distribution system which are not domestic and not high volume industrial, (e) high volume industrial uses are manufacturing, mining, processing, power plant cooling or other similar uses which consume more than 3,000 acre feet per year.

Stuhr reported that the Committee felt L.B. 850 is a good change, with one suggestion; change the definition of domestic and agricultural uses to read: (1) Domestic and municipal domestic use shall mean all uses required for human needs as related to health, fire control, and sanitation, and shall include the use of water for domestic livestock as related to human sustenance on the farm or ranch and (2) Agricultural use shall mean all irrigation, livestock watering, and other uses which support a farm or ranch activity conducted for profit.

Stuhr made the motion (Motion #4) that the district support L.B. 850 and suggest the additional definitions of domestic and agricultural preferences. Seconded by Burke. Question called. Motion carried.

LEGISLATIVE BILLS 915 AND 958

Stuhr reported that L.B. 915 is similar to L.B. 850, except it raises municipal commercial to equal preference with agricultural uses and sets three categories of municipal use, (1) domestic, (2) commercial, and (3) non-commercial. The definition of domestic use is the same as L.B. 850. Commercial use is defined as water used for profit, and non-commercial use is defined as water not for profit, such as lawn watering and recreation.

L.B. 958 would allow the Director of Water Resources to hold a hearing and declare a control area without a request from the NRD under two conditions. (1) If he has reason to believe that declines of one percent have occurred in three consecutive years, and (2) if he has reason to believe groundwater quality does not meet the standards of the Department of Environmental Control.

Stuhr made the motion (Motion #5) that the district oppose L.B. 915 and L.B. 958. Seconded by Anderson. Question called. Motion carried.

WATER COMMITTEE MEETING REPORT
Ronne gave a report on the Water Committee Meeting held February 17, 1982, and reviewed the committee report as distributed.

GROUNDWATER TRANSFER REGULATION
Ronne reported that two directors and one staff member met with Steve Seglin to discuss the proposed change to the Control Area Rules and Regulations on groundwater transfers. Mr. Seglin suggested that the change read: "After June 1, 1982, no groundwater user shall transfer groundwater off of the overlying land unless authorized by law. Any land irrigated in violation of this rule shall not be certified for allocation of water." Ronne reported that this proposal eliminates the grandfather clause because it should only be used when making something previously legal illegal. In this case common law and case law of this state says that transfer of groundwater to non-overlying land is already illegal unless it is authorized by statute. This proposed regulation only reinforces existing law and allows for enforcement through the NRD. After considerable discussion Ronne made the motion (Motion #9) that the proposed alternative (by Seglin) also be considered at the March 18, 1982 hearing. Seconded by Hansen. Question called. Motion carried.

LEGISLATIVE MATTERS - L.B. 375
Stuhr reported that the Committee directed the staff to send letters to the Senators stating these concerns about L.B. 375: (1) the qualified voter definition in the bill is poor. Management areas need to be considered by all legal voters, not just those voters owning 40 acres or more. (2) Criteria for allocation of groundwater needs to be left to individual NRD discretion, not mandated by the state. (3) Well spacing needs to be left to individual NRDs. 1,320 feet may not be restrictive enough to be effective. (4) Each NRD should, on its own motion, develop management plans. If management plans are mandated by the state, relief from the 7% lid for that program should be granted.

LEGISLATIVE MATTERS - L.B. 670
Kaiser made the motion (Motion #10) that the district support L.B. 670 but reduce the permit fee to $17.50 and to have the Department of Water Resources charge $7.50 for each new well registration. Seconded by Ronne. Question called. Motion carried.

BIG BLUE IRRIGATION PROJECT
Kaiser reported that the Executive Committee makes the following workload assignments for the Big Blue Irrigation Project effective immediately. Projects Committee - design and engineering, Parks Committee - land rights and recreation, Education Committee project public relations, Water Committee - water rights, and Budget & Planning Committee financial planning and legislative needs.

SERVICE CLUB MEMBERSHIPS
Kaiser reported that the committee, by request of some board members, considered the district paying the costs of having key employees belong to local service clubs. It was felt by the committee that it may be advantageous for the district to be represented in service clubs, to gain district exposure with others in the community. Kaiser made the motion (Motion #14) that the district pay service club costs for district employees, provided that the district does not pay for two employees in the same chapter. Further, that the district consider each request on a case by case basis. Seconded by Schlueter. Question called. Motion carried.

NEBRASKA WATER RESOURCES ASSOCIATION
Kaiser reported that the Executive Committee met with Jack Odegaard to discuss NWRA membership. The district cancelled its membership in 1981. A long discussion was held on our reasons for dropping out, that is, NWRA's stand on groundwater management legislation. Kaiser reported that Odegaard explained that his group could help promote the Big Blue Irrigation Project statewide. The benefits of the district belonging were discussed, as opposed to individual members belonging without the district membership. The annual costs to the district is about $600 which includes 3-5 directors. Kaiser made the motion (Motion #15) that the district join the Nebraska Water Resources Association as an organizational member. Seconded by Anderson. Discussion followed. Question called. CENTRAL BUTLER PROJECT - CONTRACT AGREEMENT

White made the motion (Motion #18) to rescind the motion of the November 7, 1983 committee meeting and that the Upper Big Blue NRD approve, and authorize the Chairman of the Board to sign Amendment 1, Contract 21, Natural Resources Development Fund, pertaining to component 4 of the Central Butler Project, PROVIDED:

The City of David City, Butler County and the Lower Platte North Natural Resources District approve amending the Master Agreement of the Central Butler Water Management Project, dated March 5, 1980 as follows:

The Upper Big Blue Natural Resources District shall pay 25%, or $157,107.15, whichever is least, of local costs incurred after September 12, 1983 for the Central Butler Water Management Project, provided that the Upper Big Blue Natural Resources District shall not be required to pay more than a grand total of $131,759.02, in any event, of the total project costs (including any litigation costs arising as a result of the project), from December 16, 1975 through completion of the project.

In the event any components or part thereof, as shown in plans and specifications on September 12, 1983, are not constructed, 25% of the local estimated remaining costs shall be deducted from the $131,759.02 listed above thereby creating a lower maximum the Upper Big Blue NRD will pay towards the project.

In addition, the Upper Big Blue Natural Resources District authorizes the Chairman of the Board to sign this Master Agreement Amendment, including reasonable changes redistributing the remaining costs among the other three sponsors. Seconded by Ronne. Considerable discussion followed. Ratliff amended to motion to make the motion (Motion #19) to have Steve Seglin review the Amendment to the Master Agreement of the Central Butler Water Management Project dated November 17, 1983 and to bring his comments back to the committee if they differ. Seconded by Volkmer. Question called on the amendment. Amendment carried.

BUDGET, PLANNING & LEGISLATIVE COMMITTEE REPORT
Kaiser gave a report on the Budget, Planning & Legislative Committee meeting held November 9, 1983 and reviewed the committee report as distributed.

STATE WATER POLICY AND AGENCY
Kaiser reported that Moore led the committee's discussion on the water independence congress thoughts of a state water policy board reorganization. The latest information coming out of the water independence congress about reorganization was reviewed, including the following main points: (1) Need for advocacy role for the Governor and making him accountable for all major water projects, (2) Water congress members expressing opposition to additional financial support for major water projects through natural resources commission given its present makeup, (3) Concerns expressed by some members of the water group of making an independent water agency, (4) Directions given for drafting position: (a) No change in NRC structure, (b) NRC director appointed by Governor, ©) NRC to be responsible for present activities only, and serve in advisory capacity only on major water projects. Moore made the motion (Motion #20) that the district has supported, does support, and will continue to support the Natural Resources Commission structure in its current concept. Seconded by Burke. PLATTE RIVER MANAGEMENT STUDY
Turnbull reviewed a report he received from Mike Jess concerning the Narrows Project in Colorado. The report is a proposal from the U.S. Bureau of Reclamation and the U.S. Fish and Wildlife Service which was written to solve the jeopardy opinion. That opinion is a result of a court case in Colorado that has stopped the Narrows Project on the environmental grounds of failure to adequately protect the whooping crane habitat on the Platte River in Nebraska. Turnbull expressed his concern about certain implications and statements in the report. The principle concern is the quote "Identify discrete reaches within the 53-mile designated critical habitat reach and the additional 36 miles downstream which have potential for meeting crane roosting habitat characteristics and needs." Kaiser made the motion (Motion #21) that this district does not see any reasonable need for extending the Platte River critical crane habitat as it is now designed. The district feels additional state or federal activity in this area are unnecessary. Seconded by Burke. Question called. Motion carried.

SINKING FUND
Burke reported that the district has used two methods of putting money in the Sinking Fund. The primary one over the years has been to transfer money from the General Fund to the Sinking Fund. The other, used only four out of the last twelve years, has been to levy a tax exclusively for the Sinking Fund. The latest levy was four years ago in FY 81. There is a bookkeeping expense for the counties that should be dispensed with. Burke made the motion (Motion #26) that the following resolution be approved: WHEREAS, the District's last levy of a property tax for the District's Sinking Fund was in FY 81, and WHEREAS, the District's Sinking Fund accounts are creating unnecessary bookkeeping and expense for the counties, NOW THEREFORE be it resolved that the Upper Big Blue Natural Resources District authorizes the county treasurers of Adams, Butler, Clay, Fillmore, Hamilton, Polk, Saline, Seward and York counties to transfer the current balance and future delinquent tax collections to the District's General Fund accounts on December 1, 1983, and further to close the District's Sinking Fund account. PROJECTS COMMITTEE REPORT
White gave a report on the Projects Committee meeting held September 12, 1983, and reviewed the committee report as distributed.

SMITH CREEK - OUTLET CHANNEL CULVERT
White reported that Delmar Borchers, Seward County Board, and Tim Hegeholz, Seward County Highway Superintendent, were present at the committee meeting to explain the position of Seward County relative to potential damage to the Smith Creek Dam and properties downstream from the dam due to the improper size of the culvert used as bridge replacement. The County representatives said they are aware that the culvert is too small, however, they were in no position to assume any liability for damages at this time. White made the motion (Motion #7) that the Board of Directors authorize the staff to prepare an engineering analysis of the condition which exists at Smith Creek complete with recommended corrective measures and to have an independent engineer review and verify the findings, and that the verified documents be transmitted as the Natural Resources District's opinion to the Seward County Board. Further, a statement should be sent from the Natural Resources District to the Seward County Board disclaiming any responsibility for future claims of damage to property or loss of life which might occur due to current culvert capacity and its effects. Seconded by Ronne. Question called. Motion carried.

EDUCATION AND PARKS COMMITTEE REPORT

Ehlers gave a report on the Education and Parks Committee meeting held July 14, 1983, and reviewed the committee report as distributed.

CAMP JEFFERSON OUTDOOR EDUCATION - 1984

Ehlers reported that the committee discussed the status of this teacher workshop and decided that support of this camp should be continued if we can raise the number of participants. This year we had 12 teachers; 16 would justify the camp, but 20 would be better. More emphasis; on recruiting teachers by the staff will be put forth. If several teachers from this NRD can attend, consideration of financing will be in order.

LESLIE ASSOCIATES BILLING - LANDMARK PROJECT

Ehlers reported the staff briefed the committee regarding the status of Leslie Associates work with Landmark to date. They plan to interview all NRD board members during August as part of the strategy plan. Ehlers made the motion (Motion #14) that payment of $2,401.32 be made to Leslie Associates for work completed in the month of June. Seconded by Peters. Question called. Motion carried.

EXECUTIVE COMMITTEE REPORT Hladky Case
Turnbull reported that on July 21, 1983, a Supreme Court prehearing conference was held in David City. Hladky's attorney offered to settle for $24,000 and his offer was refused by the Steering Committee. On the same day there was a hearing in the Butler County Court on the inverse condemnation suit filed by Hladky on July 5, 1983. This suit would call for the County Court to appoint appraisers to appraise damages which would become the court award. Our attorney filed a motion to stay for the reason that another suit is pending appeal in the Nebraska Supreme Court over the issue "Has Hladky been damaged?". The County Court agreed to the motion to stay so no further action can take place in the County Court
at this time.

LANDMARK ATTORNEY
The district has received a quote from Steve Seglin of Crosby, Guenzel, Davis, Kessner & Kuester for fees associated with the Landmark water right hearing. A fixed fee was requested by the Manager. The first quote was $90,000 for the hearing and $10,000 for the Supreme Court Appeal. That was turned-down by the Manager through Committee guidance. The new quote is for $45,000 to conduct the district's side of the case and an hourly billing to defend the objectors arguments, witnesses, etc.

Schlueter made the motion (Motion #30) to hire the firm of Crosby, Guenzel, Davis, Kessner & Kuester for services and fees as follows:

1. To prepare for the hearing before the director of the Department of Water Resources which would include the following: (a) interviewing witnesses; (b) preparing witnesses to testify; (c) conferences with district manager and staff; (d) taking any necessary depositions (excluding any depositions which may be taken by the objectors); (e) performing necessary research; (f) attending pre-hearing or pretrial conferences; and (g) preparing a pretrial order.

2. Represent the district at the hearing. Examine all witnesses which the firm calls on the district's behalf (this excludes the cross examination of any opponent's witnesses and any necessary rebuttal evidence). Included would be any necessary trial briefs or research.

3. Represent the district in any appeal that may be filed to the Supreme Court including preparing the necessary briefs and appearances to oral argument before the Court.

4. Commit the services of both Robert Crosby and Steve Seglin and any other lawyers in our office that would be necessary.

5. Undertake all of the services listed above for a firm fee of $45,000. Leave open and bill the district at the normal hourly rate for all work generated by the objectors which would include attending depositions where initially the objectors are examining those witnesses, responding to any briefs, motions or interrogatories generated by the objectors; participating in any hearings on any motions generated by the objectors; sitting through the testimony of the objector's witnesses and any cross examination thereof; the preparation and calling any rebuttal witnesses. The firm would be reimbursed for any out-of-pocket expenses including, but not limited to, court costs, travel, hotel, meals, court reporter expenses, copying expenses and the like.

Provided the Firm agrees to:

1. Rights of termination of this agreement by the district if a conflict of interest arises over the State Non-Game and Endangered Species Act and related Biological opinions. If such termination is exercised the district is to pay only that portion of the $45,000 that is actually incurred, plus other expenses incurred as stated in #5 above.

2. In the event the district's water right case does not go to the State Supreme Court the $45,000 fee be reduced to $35,000.

3. The district be billed on a pro-rated monthly rate of $2,500 per month for the fixed fee portion, in addition to billing for other expenses in #5 above, as incurred.

FY 84 BUDGET

Schlueter reported that the FY 84 budget was thoroughly reviewed by the Committee. The draft presented had $126,740 budgeted for land treatment, property taxes 5% greater than last year and a $94,000 transfer from sinking fund investments to the general fund to balance the revenues with expenses. Schlueter made the motion (Motion #31) that the district only transfer $67,719.22 from the sinking fund to the general fund and reduce the land treatment to $100,500 in order to balance revenues with expenses. Further, such transfer be all of those funds set aside for the Central Butler ($37,719.22) and Siebert ($30,000) projects scheduled for FY 84 construction. In addition to the above that the FY 84 budget as amended be approved for presentation at the budget hearing in August. Seconded by Burke. Question called. Motion carried.

EDUCATION AND PARKS COMMITTEE REPORT

Ronne gave a report on the Education and Parks Committee meeting held May 10, 1983, and reviewed the committee report as distributed.

GAME AND PARKS

COMMISSION WILDLIFE HABITAT PROGRAM UPDATE Ronne reported that Ben Schole, Game and Parks Commission Field Representative for this district has resigned his position to return to farming. The NRD had expended it's allocated funds for the Wildlife Habitat Program from Game and Parks. The wildlife contracts for June, 1983 will be honored, but additional funds will not be available until further notice.

PUBLIC RELATIONS FIRM FOR "LANDMARK PROJECT"

Ronne made the motion (Motion #7) that the agreement with Leslie Associates, Inc. of Omaha be approved as presented. Seconded by Dickinson. Question called. Motion carried.

REVISED NRD AWARD PROGRAM

Ronne reported that instead of 8 or 9 annual conservation farm awards, 4 would be given to the best landowners. The District would be broken into four areas - northeast, northwest, southeast and southwest. The four quarters would consist of areas farmed by Highway 81 (north-south), and Interstate 80 (east-west). In addition, 5 new award categories would be created to honor those who do not all actively farm or own land. This is an effort to expand our awards program. The five new categories would be (1) Agri-Business Award, (2) Conservation Teacher of the Year Award, (3) Landowner Management Award, (4) Tree Planter Award, and (5) Wildlife Award. The awards would consist of a nice plaque and public presentation. The SCS would nominate any or all of these awards. If so, their name would also be on the plaque. All of these awards will be given on an "as deserved" basis. Ronne made the motion (Motion #8) that the revised awards program be accepted as presented. Seconded by Volkmer. Question called. Motion carried.

BUDGET, PLANNING & LEGISLATIVE COMMITTEE REPORT
Kaiser gave a report on the Budget, Planning & Legislative Committee meeting held May 12, 1983 and reviewed the committee report as distributed.

SCS REPORTS
Schlueter reported that Jerry Willhoft, Liaison D.C., met with the committee to discuss the SCS reports to the board meetings. By mutual consent it was agreed to have the SCS listed on each board meeting agenda but that the SCS would only make formal reports on a quarterly basis. If 13 specific committee or the staff requests, reports could be given as needed in addition to the quarterly reports. This streamlining should help both the board and the SCS.

LANDMARK PROJECT
Schlueter reported that Turnbull briefed the committee on the status of the Landmark Project. On March 11, 1983 Mike Jess of the Department of Water Resources informed this district that we should expect the water rights hearing by winter and that a biological opinion is to be done by the Game and Parks Commission prior to that. Turnbull requested the Game and Parks Commission, on April 26, 1983, to begin the biological opinion work on the district's water right application. On May 5, 1983 Bill Bailey, Game and Parks Commission, informed the district to expect the first meeting with them on the biological opinion in July. Turnbull, Regier and Bitner met with Robert Crosby and Steve Seglin to discuss the possibilities of them representing the district in our water rights hearings. Potential conflict of interests were discussed and resolved. Crosby and Seglin have proposed a fee for their services. The Committee directed Turnbull to continue negotiating the fee.

FINANCIAL STATEMENT AND BUDGET REPORT
Turnbull reviewed the financial statement and budget report for April, 1983. White made the motion (motion #11) to approve the financial statement and budget report as of April 30, 1983, as presented; to make payment of the accounts payable and approve the expenditures for publication. Seconded by Kaiser. Question called. Motion carried.

1. The City of Fairmont will administer the project.
2. The City of Fairmont will stand the cost of planning and design, including plans and specifications...
3. The City of Fairmont will handle contracts and vendors as necessary.
4. The project will be designed and built to meet appropriate park, safety, and building code requirements, for public facilities.
5. The City of Fairmont will operate and maintain the facility. NRD funds are not available for operation and maintenance.
6. The facility will be for the use and enjoyment of the general public.
7. The NRD funds will be paid to the City of Fairmont upon completion of the project and a satisfactory final inspection and acceptance by the NRD.

Seconded by Anderson. Considerable discussion followed. Stuhr amended the motion to make the motion (Motion #7) that the matter be sent back to the Education and Parks Committee to have it clarified. Seconded by Kaiser. Question called on the amendment. Amendment failed.

NRD FARM CONSERVATION AWARDS
Volkmer reported that the committee discussed the situation regarding the annual photo awards program and the fact that some counties have less than desirable nominations. No one is to blame because after many years of nominations many of the better conservation farmers have been recognized. The Committee directed the staff to examine other conservation award categories such as water management, tree planter, wildlife manager, teacher of the year, grassland award, citizen and/or business man recognition etc.

1983 SOIL STEWARDSHIP WEEK
Volkmer made the motion (Motion #13) that the district participate in the 1983 Soil Stewardship Week observance and that not more than $200 be expended for inserts and mailing to the churches who wish to be included. Seconded by Schlueter. Question called. Motion carried.

LANDMARK PROJECT
Volkmer gave a report concerning the two briefings (Hamilton County Groundwater Association and Hamilton County Ag Organization leaders) designed to inform those people...
who will be affected first by the project. It is planned to involve as many agricultural and community leaders as possible in the areas where irrigation water will be stored and delivered. The groups are kept small so a very open discussion can be held. From these meetings the staff hopes to build a nucleus of support in Hamilton County (and across the NRD) because a proposal of this scope and size will never become reality unless there is broad based public support. Many more of these meetings are being planned in the near future. Volkmer made the motion (Motion #14) that the NRD public relations department manager research and contact several professional firms to put together a "package plan" for promoting the Landmark Project. Seconded by Ratliff. Discussion followed. Question called. Motion carried.

UN-L EXTENSION SERVICE CONSERVATION TILLAGE MEETINGS

Volkmer reported that the district has received several requests in the past for assistance in funding various programs, tours, etc., the latest being from Columbus and Aurora for area tillage meetings. Although they are not large requests for funding assistance, we do not have a policy to cope with this. Volkmer made the motion (Motion #15) that the NRD fund only those programs and workshops which the district is principally involved in. Seconded by Dickinson. Question called. Motion carried.

WATER COMMITTEE REPORT
Obermier gave a report on the Water Committee meeting held January 14, 1983, and reviewed the committee report as distributed.

REQUEST FOR WELL SPACING VARIANCE
Obermier reported the committee met with Walter Goertzen of Hampton to discuss his request for a variance to the well spacing regulation. Mr. Goertzen requested that he be allowed to drill an irrigation well approximately 900 feet from two other wells. In order to get 1,000 feet from these wells he would have to move his well 100 feet into the field. The committee: recommended Walter Goertzen's well spacing variance request be denied.

L.B. 23
Obermier reported that L.B. 23 had been introduced by Senator Sieck on the District's behalf. This bill will change the well permit procedure so that the NRD would issue the well permits instead of the Department of Water Resources.

CONSERVATION WORKSHOPS
The district staff has been working with the SCS, Extension and Blue River Association to set up two conservation workshops. One will be held March 7th in Utica and the other March 8th in Sutton.

WATER CONSERVATION PROGRAM
DeBuhr reported he had been contacted by the Little Blue NRD about a water conservation program being conducted by the Adams County Extension Office. The contest will be to see who can raise the highest yield with the least amount of water. Lending institutions are donating the prize money. The cost of this contest to the district would be minimal with some staff time required at harvest. Stuhr made the motion (Motion #25) to support: the Adams County Water Conservation Contest. Seconded by Schlueter. Question called. Motion carried.

PROJECTS COMMITTEE REPORT
White gave a report on the Projects Committee meeting held December 10, 1984 and reviewed the committee report as distributed.

JOHNSON CREEK WATERSHED
Gary Wooten of the Saline County SCS was present at the Projects Committee meeting to convey the general status of land treatment in the Johnson Creek Watershed. Gary indicated that the South Fork of Johnson Creek has a drainage area of approximately 22,000 acres and the North Fork approximately 21,000 acres. A land treatment type project would probably consist of terraces and waterways, mechanical outlets, and some small erosion control dams. Gary indicated that an educational program in the form of conservation field days would probably generate the most success in promoting a land treatment project on this scale.

HASTINGS NORTHWEST FLOOD CONTROL STRUCTURE - DAMAGE CLAIM
White made the motion (Motion #2) that the board of directors authorize a steering committee composed of 1 staff member and 2 board members from each of the sponsoring entities for the purpose of resolving damage claims relative to Hastings N.W. Flood Control Structure. Seconded by Ehlers. Question called. Motion carried.
AYE: Andersen, Anderson, Burke, Dickinson, Ehlers, Hansen, Kaiser, Moore, Obermier,

FLOW METER INCENTIVE PROGRAM
The Water Committee had a lengthy discussion concerning the need for such a program. The staff is still waiting for some meter prices and discount information from the manufacturers of meters. When that information is received the committee will advise the board of program status.

GROUNDWATER CONSERVATION DISTRICT EXTENTION OF EXISTENCE
The GWCDs will cease to exist on January 1, 1987 unless legislative action is taken to extend them. The Budget, Planning & Legislative Committee is the committee responsible for formulating the NRD's stand on this issue. Since the Water Committee works with the programs dealing with the GWCDs they felt that they may want to make a recommendation to the Budget, Planning & Legislative Committee. When the Budget, Planning and Legislative Committee has reviewed this recommendation the matter will be brought back to the board.

TWO-WAY RADIOS
Turnbull and Stuhr met with Dick Jamros, Government Markets Division, Motorola on December 10 to discuss Motorola radio equipment. It appears that the new Motorola trunked radio system fits the districts needs at a reasonable cost. Motorola has a contract with the State of Nebraska that was obtained through competitive bidding. Political sub-divisions in the state may benefit by that contract. (The price is considerably under list and all bidding requirements have been met.) The Committee will bring a recommendation to the board in January with a firm price and a necessary equipment list.

PROJECTS COMMITTEE REPORT
White gave a report on the Project Committee meeting held November 5, 1984 and November 15, 1984 and reviewed the committee reports as distributed.

LAND TREATMENT FUNDS - SPECIAL REQUEST
Carl Fosler, tenant, and Stanley Matzke, owner, representing the Matzke property in Seward County, requested permission to file a late application for land treatment cost-share on an erosion control dam constructed earlier this year. Application was made with the ASCS and cost-share granted, however, an application for NRD funds was never filed with the District. Mr. Fosler and Mr. Matzke indicated that it was Mr. Matzke's intent to apply for NRD cost-share assistance, but for some unknown reason the papers were never processed. If the application had been processed in the normal manner there would have been no reason not to grant the cost-share.

White made the motion (Motion #2) to approve the Matzke application for final payment on the erosion control dam in the amount of $821.53 on the basis that intent to file for tentative approval before construction was shown. Seconded by Ehlers. Question called. Motion carried.

HASTINGS N.W. FLOOD CONTROL STRUCTURE - DAMAGE CLAIM

Neil Grothen, owner of land adjacent to the Hastings N.W. Flood Control structure, was present at the Projects Committee Meeting to submit a claim for flood damages to his corn crop, both upstream and downstream of the dam. The damage resulted from rainfall on May 25, 1984. Original plant date was May 9 and May 10 and the replant date was June 1, 1984. Mr. Grothen stated that some of the crop was inundated for as long as 4 days. Total claim submitted for both upstream and downstream damages was $10,521.91. The claim will be reviewed for possible action at the December board meeting.

MENTINK STRUCTURE - FENCING

A letter was received from Gerald Mentink in response to Steve Seglin's letter stating the district's need to inspect the structure in accordance with our existing agreement which grants the district right of entry. Mr. Mentink stated in his letter that he would cooperate with the district and allow the required inspection and maintenance. Mr. Mentink also requested that a fence be constructed around the earth dam structure to protect it from cattle grazing.

White made the motion (Motion #6) that the board authorize construction of a fence around the Mentink Dam (not including the water or wildlife area) at district expense, and that the fence be constructed to district specifications. The fence is to be constructed this fall if possible. Seconded by Anderson. Volkmer amended the motion to make the motion (Motion #7) that Mr. Mentink is to maintain the fence. Seconded by Ehlers. Question called on the amendment. Amendment carried.

LANDMARK ECONOMIST
A consulting economist needs to be hired by the district to prepare and give expert testimony about the Landmark Project. A firm has been recommended by Boyle Engineering. That firm, Western Research of Laramie, Wyoming has submitted a proposal. The scope of services is being revised. Our attorney is scheduled to meet with and evaluate the principals involved.

HLADKY SETTLEMENT
An offer of $18,000 has been made to Joe Hladky in exchange for a perpetual easement across his property. The easement would allow for temporary storage and flowage of water from the David City Airport drainage (Central Butler Project). The easement is being circulated to the sponsors for approval and signatures. It is likely that Mr. Hladky will also sign. Schlueter made the motion (Motion #9) to approve the Joe Hladky settlement of $18,000 and perpetual easement, subject to terms and conditions of the Master Administrative Agreement for the Central Butler Water Management Project dated March 5, 1980 and the amendment thereto dated March 1, 1984. Seconded by Kaiser. Question called. Motion carried.

TWO-WAY RADIOS
The FY 85 budget as adopted provides funds for a two-way radio system purchase. The radios would allow for improved coordination between the office and field activities. Survey work, construction inspection, and tree planting are the main activities that would benefit by the use of radios. Construction or survey changes often require extra trips to the field in order to straighten them out. Tree orders and planting conditions often require schedule changes. Better communication would save staff time which in time would offset the cost of the radios. Burke made the motion (Motion #11) with the intent of purchasing a two-way radio system in FY 85, to direct the staff to prepare specifications, advertise for and open bids, and make purchase recommendations to the board as soon as possible. Seconded by Moore. Question called. Motion carried.

REPLACEMENT WELL SPACING
A request has been made by Burton Peters to allow the drilling of a well less than 1,000 feet from a neighbors well. Currently, Mr. Peters' well is approximately 750 feet from his neighbors well. This well was drilled prior to the establishment of the NRD's Control Area Rules and Regulations. State law requires only a 600 foot spacing between wells. Stuhr
made the motion (Motion #12) that the board adopt the following policy statement regarding the spacing requirements for replacement wells to deal with Mr. Burton Peters' situation and similar situations that may arise in the future.

"Any irrigation well drilled in the Upper Big Blue Natural Resources District Groundwater Control Area which replaces a well drilled prior to March 1,1979 which is less than one thousand feet from another irrigation well under different ownership, shall be drilled no closer to the well under different ownership than the well which it is replacing." Seconded by Kaiser. Question called. Motion carried.

FLOW METER INCENTIVE PROGRAM
The second draft of the proposed flow meter incentive program was reviewed. The possibility of the district handling the sale of meters directly, and also the possibility of district cost-sharing on meters was also discussed.

RUNOFF POLICY CHANGES
The Board reviewed the first draft of the runoff policy statement which incorporates the policies adopted by the board last month. They also reviewed a first draft Memorandum of Understanding between the NRD and GWCDs. Rod has asked for the GWCDs input. When this has been received he will bring a final draft to the board.

BUTLER COUNTY OIL LEASES
On October 5, 1984 letters were sent to TEXACO and Magness Petroleum Company regarding rumors that lessees in Butler County were being told that oil wells that turn out to be dry holes could be used as water wells by the landowners. On October 25, 1984 a representative for these companies explained that the lessees had been told that they could negotiate for the use of dry holes for water wells. He also said there was no provision for a gravel pack or perforated casing in the fresh water aquifer. If any of these holes are used as water wells the NRD will have to address the issue of how and when a permit is to be obtained.

WELLS WITHOUT PERMITS
A well owned by Eldon Purdy which appeared to have been drilled prior to obtaining a permit was in fact drilled after a permit had been obtained. The reason for the misunderstanding was that the well driller's office had accidently used the wrong information from Mr. Purdy's file when filling out the well registration papers. The well driller has provided receipts to document this.

Mr. James Askey and a representative of Nunnenkamp Well Company had expressed interest in meeting with the committee to discuss Mr. Askey's well drilled without a permit. However they did not show up for the committee meeting. Rod suggested that he be allowed to make one more contact with the well driller and Mr. Askey to try and resolve the matter.

GMDA CONFERENCE - SAN ANTONIO, TEXAS
Rod outlined the itinerary for the GMDA Conference to be held December 5 through 7 in San Antonio, Texas. He also discussed possible travel plans to and from the conference. Stuhr made the motion (Motion #13) that four board members be allowed to attend the GMDA Conference in San Antonio and that the district pay all expenses. Seconded by Volkmer. Question called. WATER COMMITTEE REPORT
Ratliff gave a report on the Water Committee meeting held October 1, 1984 and reviewed the
committee report as distributed.

IRRIGATION RUNOFF POLICY
Ratliff reported DeBuhr handed out some alternatives to be considered as possible changes
to the NRD's current irrigation runoff policy. Also invited to the meeting were the Blue
River Association of GWCDs' board members. Most of the discussion centered around the need
for rededication to diligently working on runoff problems. The staff was directed to draft
the needed changes to current policy to incorporate proposed policy alternatives 1, 2, 5,
and 6.

WELLS WITHOUT PERMITS
The committee recommended that (#1) the board of directors issue a formal complaint
against Eldon Purdy of Phillips, Nebraska for the construction and operation of an illegal
well in the NW3-2 of Section 19, Township 11 North, Range 7 West, Hamilton County and (#2)
the board of directors issue a formal complaint against James E. Askey of Trumbull,
Nebraska for the construction and operation of an illegal well in the NE1/4 of Section 11,
Township 8 North, Range 9 West, Adams County. Ratliff made the motion (Motion #2)

**PLATTE RIVER AGREEMENT**
Both the Little Blue NRD and the Central Platte NRD have requested that this district consider entering into the Platte River Agreement. This agreement concerns the Prairie Bend, Twin Valley and Catherland irrigation projects. The agreement calls for feasibility studies on these projects, priority date change, and to support each others projects. The parties to the agreement also agree that the Prairie Bend-Twin Valley diversion point is to be moved downstream of the J-2 return to the Platte River. This district has raised an objection to that change in the Twin Valley hearing, which is not yet resolved. Kaiser made the motion (Motion #5) that the district not enter into the Platte River Agreement at the present time. Seconded by Anderson. Question called. Motion carried.

**WILDLIFE HABITAT PROGRAM**
The Game and Parks Commission has notified the district to expect reductions in the level of state funding for the Wildlife Habitat Improvement Program in FY 86 and future years. Mr. Edwards, of the Commission, claims these cuts are necessary because of a decline in annual income to the fund. He also stated that the Game and Parks Commission has a clause in the interlocal agreement with the NRD's that allows them to discontinue funding on existing contracts. The district does not have such a clause in its contracts with the landowners. It is felt that the district has an active habitat program that should continue at its current level of funding, and certainly not reduce the existing contracts. It is also felt the Game and Parks Commission should take the same approach. Ronne made the motion (Motion #7) to adopt Resolution 84-1 as follows: WHEREAS, the Upper Big Blue
Natural Resources District and the Nebraska Game and Parks Commission have spent eight years developing an excellent wildlife habitat improvement program, and WHEREAS, the district program insures habitat protection and improvement on 3,072 acres of land through 272 separate contracts with private landowners, and WHEREAS, the public, especially hunters and outdoormen, are keenly aware of the benefits of the program, and WHEREAS the Game and Parks Commission is planning reductions in its level of funding for the Wildlife Habitat Improvement Program that threatens the cancellation of existing contracts, as well as restricting new sign-ups, THEREFORE BE IT RESOLVED that the Upper Big Blue Natural Resources District Board of Directors opposes any reductions in the level of funding of the Wildlife Habitat Improvement Program, by the Game and Parks Commission, that will affect existing contracts or prevent the addition of new contracts. Seconded by Schlueter.

LAND TREATMENT FUNDS - SPECIAL REQUEST

White reported that Carl C. Fosler, tenant, was present representing Stanley C. Matzke, owner of property in Seward County, to request permission to file a late application for land treatment cost-share on an erosion control dam constructed earlier this year. Application was made with the ASCS and cost-share granted, however an application for NRD funds was never filed with the district. Mr. Fosler indicated that it was Mr. Matzke's intent that the SCS would file the required papers with the district. White made the motion (Motion #13) that the board approve the Matzke request to file a late application and that the cost-share be calculated at it would for any land treatment application filed with the district. HASTINGS N.W. DAM EMERGENCY PREPAREDNESS PLAN
White made the motion (Motion #8) that the district, acting as lead agency for the sponsors, enter into an agreement with the Soil Conservation Service for the purpose of preparing a breach routing study of the Hastings N.W. flood control dam and that the obligations of the sponsors be as follows:

1) provide in kind services related to surveying, breach routing, map preparation and preparation of Emergency Action Plan not to exceed an estimated value of $2,000, (2) accept all financial and other responsibilities for excess costs resulting from their failure to obtain, or delay in obtaining adequate land and water rights, permits and licenses needed for the engineering, (3) designate an individual to serve as liaison between the sponsors and SCS, with authority and responsibility for reviewing and approving changes in the work described and to furnish such information in writing to the State Administrative Officer, (4) review each phase of the work submitted and approve subject to any changes that may be required and give final approval when such recommendations have been carried out, and (5) if applicable, complete the attached "Clean Air and Water Certification" and comply with the attached "Clean Air and Water Clause". Seconded by Volkmer. Question called. Motion carried.

WATER COMMITTEE REPORT
Ratliff gave a report on the Water Committee meeting held May 8, 1984 and reviewed the committee report as distributed.

ARDEAN PETERS WELL SPACING VARIANCE
Ratliff made the motion (Motion #9) to adopt the following resolution: WHEREAS, Mr. Ardean Peters has requested a variance to the Upper Big Blue Natural Resources District Control Area Rules and Regulations (Rule 2B(2) Well Spacing), and WHEREAS, without such a variance
Mr. Peters, proposed replacement well, being approximately 700 feet from well number G-25691 currently owned in trust by the National Bank of Commerce, would be in violation of Rule 2B(2), and WHEREAS, the National Bank of Commerce has agreed to the granting of such a variance, and WHEREAS, Mr. Peters has agreed to permanently abandon his existing well number G-14507 located in the W1/2 of the SW1/4 of Section 19, Township 12 North, Range 2 West in York County, and WHEREAS, the National Bank of Commerce well number G-25691, located in the E1/2 of the SW1/4 of Section 19, Township 12 North, Range 2 West will be capped and it is unlikely that said well will be used in the future, and WHEREAS, Mr. Peters’ proposed replacement well will supply water to a center pivot which will be used to irrigate both his property and the adjoining property of the National Bank of Commerce, thereby significantly reducing the total water use for the irrigation of these two properties, and WHEREAS, the Upper Big Blue NRD Control Area Rules and Regulations are intended to encourage the conservation of groundwater, NOW THEREFORE be it resolved that the Upper Big Blue Natural Resources District’s Board of Directors hereby grant, according to the stipulations stated above, a variance to Rule 2B(2) – Well Spacing, to Ardean Platers of York, Nebraska for a replacement well to be located near the center of the SW1/4 of Section 19, Township 12 North, Range 2 West in York County. Seconded by Ehlers. Question called. Motion carried.

CHEMIGATION
Ratliff reported that on May 7th Rod met with the Department of Environmental Control, the Nebraska Natural Resources Commission and several other NRDs to discuss possible DEC regulations and/or legislation dealing with chemigation. The group directed Clark Haberman, DEC, Gordon Kissel, NARD and Jay Holmquist, NNRC to draft legislation. The first draft should be ready by the September NARD conference.

LAKE HASTINGS
Ratliff reported Ron attended a meeting between the Little Blue NRD and the Hastings City Council concerning a proposed study to use city treated effluent to maintain water levels in Lake Hastings, to provide an industrial water supply and possible groundwater recharge. A request is expected for this NRD's support of the study.

EXECUTIVE COMMITTEE REPORT
Burke gave a report on the Executive Committee meeting held May 8, 1984 and reviewed the committee report as distributed.

SCS/NRD CLERKS
Burke reported that Sherman Lewis presented a report entitled NRD/SCS CLERICAL WORKLOAD ANALYSIS. Mr. Lewis requests the NRD consider changing the clerk positions to full time. The justification is the SCS workload which, in his words, has a common goal with the NRD. Full time clerks would allow the technicians to spend more time in the field. He stated the Federal Budget does not allow him to hire clerks because of personnel ceilings and federal funds. The Executive Committee has referred this matter to the Budget, Planning & Legislative Committee for advice and consideration.

ATTORNEY’S FEES
Burke made the motion (motion #10) to approve payment of $260.12 to Crosby, Guenzel, Davis, Kessner & Kuester for Steve Seglin's work through April 20, 1984. Seconded by Stuhr. Question called. Motion carried.

REPORTS

PROJECTS COMMITTEE MEETING REPORT
White gave a report on the Projects Committee meeting held April 9, 1984 and reviewed the committee report as distributed.

EXETER FLOODING PROBLEM
White reported that a group of people from Exeter and Fairmont were present at the Projects meeting to request the Upper Big Blue NRD's assistance in determining a solution to basement flooding due to increasing groundwater levels in the local perched water table. A water level recorder Well west of Exeter shows that the water table has been gradually increasing for thirty years and is now above basement floor level. White made the motion (Motion #2) to authorize the Projects Department to conduct a study of a portion of Fillmore County near Exeter and Fairmont for the purpose of identifying the extent of surface and groundwater drainage problems and to recommend a course of action for resolving the drainage problem. Seconded by Ronne. Considerable discussion followed. Stuhr amended the motion to make the motion (Motion #3) to add "Further, that a steering committee be formed to oversee and coordinate the Exeter area drainage; the steering committee to have appointed representatives from participating political sub-divisions and that the Village of Exeter and Fillmore County be encouraged to be represented. Seconded by Dickinson. Question called on the amendment. Amendment carried.

EDUCATION AND PARKS COMMITTEE REPORT
Ronne gave a report on the Education and Parks Committee meeting held April 16, 1984 and reviewed the committee report as distributed.

NRD PARK POLICY
Ronne reported the committee discussed a new park policy that would apply to any city, town, or county within the district that wishes to apply for cost-share to build or improve a recreation area within their boundaries. Turnbull reviewed the policy with the board. Ronne made the motion (Motion #5) to adopt the parks and recreation policy, including cost-share rate, as presented. Seconded by Ehlers. Question called. STROMSBURG CITY PARK PROPOSAL
Ronne reported that Barbara Cotter, Stromsburg City Clerk/Treasurer, and Mrs. Elton Peterson, representing the Stromsburg Woman's Club, presented a proposal to the committee regarding their new Midwest Park/Arboretum. Stromsburg has applied for financial assistance to build the park through the Nebraska Game and Parks Land and Water Conservation Fund. NRD funds are being requested for tree and plant material, playground equipment, signs, sidewalks, patio picnic shelters, lighting and several miscellaneous items. Ronne made the motion (Motion #6) to approve funding for the Stromsburg Midwest Park/Arboretum, Stromsburg, Nebraska, in the amount of $2,451.45, which is 6.25% of the balance of the project estimate, provided the City of Stromsburg agrees to the terms and conditions of the NRD Parks and Recreation Program. Further, that the $2,451.45 be placed in a Sinking Fund account, titled Stromsburg Park, with the interest earned being transferred to other accounts. Partial payments will be made from said Sinking Fund upon completion of each phase and receipt of claims. Seconded by Burke. Question called. Motion carried.

WATER COMMITTEE REPORTS
Ratliff gave a report on the Water Committee meetings held April 10 and April 19, 1984 and reviewed the committee reports as distributed.

WELL SPACING VARIANCE
Mr. Peters requested a well spacing variance in order to irrigate two separately owned 80's with one pivot. The motion to approve this well spacing variance failed in committee. Ronne made the motion (Motion #7) to send this matter back to committee for further discussion. Seconded by Dickinson. Question called. Motion carried.
AYE: Anderson, Dickinson, Ehlers, Hansen, Kaiser, Moore, Obermier, Ratliff, Ronne, Schlueter, Stuhr, White
CHEMIGATION
Ratliff reported the Committee reviewed the chemigation report Rod prepared. The Department of Environmental Control plans to meet with several NRDs concerned with this issue and begin to formulate regulations. The Committee felt the NRD staff should participate in these meetings and encourage the incorporation of the recommended items in Rod's report. There were objections raised to recommendation number 7 of the report, therefore the Committee felt the staff should not promote this option in the talks with the Department of Environmental Control.

CERTIFICATION OF IRRIGATED ACRES
Approximately 94% of the active wells have been reported by the operators to date.

EXECUTIVE COMMITTEE REPORT
Burke gave a report on the Executive Committee meeting held April 1-0, 1984 and reviewed the committee report as distributed.

1ST QUARTER PER DIEM & EXPENSES

BUDGET, PLANNING & LEGISLATIVE COMMITTEE REPORT
Schlueter gave a report on the Budget, Planning & Legislative Committee meeting held April 17, 1984 and reviewed the committee report as distributed.

LANDMARK PROJECT
Schlueter reported the progress of the Landmark project to date was discussed. Also discussed at length were preliminary projections of the water situation in future years, with and without the project in place. The philosophy and long range goals of Landmark and allocation were also talked about at length. The general consensus of the committee was (1) they work toward the permit must continue and (2) it is necessary to review the economics of Landmark and/or alternative of regulation.

NARD LEGAL DEFENSE FUND
Schlueter reported that Stuhr, NARD Representative, asked for guidance on a recent legal defense fund request from the Lower Niobrara NRD. The case in question involves a Rural Water District administered by the Lower 'Niobrara. The district offered to buy a tract of land for a well site from Mr. Harvey Sorensen. He signed an option to buy agreement and accepted earnest money. Mr. Sorensen later backed out of the agreement at which Point the Lower Niobrara condemned the tract. It went through County Court to District Court. Several points of contention were raised in District Court, one of which is that the rural water supply wells will in the future jeopardize Mr. Sorensen's irrigation wells. The District Court awarded Mr. Sorensen $15,000. He is appealing that decision to the State Supreme Court. Because of ramifications statewide of some of the issues in this case the Lower Niobrara has asked for assistance from the NARD Legal Defense Fund. Schlueter made the motion (Motion #10) to approve $2,000 to be paid to the NARD Legal Defense Fund for
the Lower Niobrara vs. Sorensen court case (water preference issue). Seconded by Stuhr.

EDUCATIONAL ASSISTANCE
Burke reported the district does not have a policy for educational assistance for its employees. However, the Executive Committee has discussed the need for such a policy from time to time. The Executive Committee has received a request for educational assistance this month. The Committee feels a policy should be adopted in the near future. The following should be considered in an educational assistance policy: (1) Assistance for higher education in a field mutually beneficial to the employee and district, (2) Financial assistance for tuition but not travel or living expenses, (3) Financial assistance be committed for entire academic program contingent on successful completion of each term, (4) Employee is to complete educational work on own time not district time. Normal work requirements (hours and performance) still must be met, (5) Employee is to agree to repay the district by remaining an employee for a minimum of six months for each academic semester financed by the district, and (6) Assistance not be in lieu of salary, benefits, or raises.

Burke reported that Jeff Ball, Engineering Technician, has requested assistance for a
correspondence course. The course he is pursuing will prepare him to be a registered Civil Engineer. He currently holds an Associate Degree from the Technical School at Curtis, Nebraska. The course of study is a two year course through International Correspondence Schools, Scranton, Pennsylvania, which will prepare him to take the Professional Engineer’s Examination.

Burke made the motion (Motion #14) to approve financial education assistance in the amount of $689.00 for one semester's tuition to International Correspondence Schools for Jeff Ball to study Civil Engineering Technology, provided he agrees to: (1) Complete educational work on his own time, (2) work six months for the district upon completion of the semester's work, (3) repay the district $689.00 if the semester is not successfully completed or if the course work is terminated, (4) assistance is not in lieu of salary or portions thereof, raises or other benefits. Seconded by Hansen. Question called. Motion carried.

BUDGET, PLANNING & LEGISLATIVE COMMITTEE REPORT
Schlueter gave a report on the Budget, Planning & Legislative Committee meeting held January 17, 1984 and reviewed the committee report as distributed.

PESTICIDES & FERTILIZERS THROUGH IRRIGATION SYSTEMS
Schlueter reported the committee discussed the pros and cons of laws/regulations preventing or restricting the use of pesticides and fertilizers through center pivots. The concern is of groundwater contamination through misuse or mechanical failure of the injection equipment. No bill on the subject is before the Legislature at this time and none will be possible unless through amendment this session. Schlueter reported the committee did not have enough information in order to make a solid recommendation, therefore the committee directed the District's Water Department staff to research the issue and report back to the Committee.
LEGISLATIVE BILLS AND RESOLUTIONS
