LANDOWNER CERTIFICATION:

I, hereby, certify that I am the landowner, his or her power of attorney or other (see #3 below) and that I am familiar with the information contained in this application and, that to the best of my knowledge and belief, the information is complete and accurate. I also acknowledge that I understand and will comply with the District’s Ground Water Management Area Rules and Regulations (District Rule 5). I further authorize representatives of the District to enter onto this above described property for the purpose of determining compliance with District’s Ground Water Management Area Rules and Regulations (District Rule 5).

Please read application instructions and permit restrictions listed below before you sign.

Date _____ Authorized Signature _____
(See Application Instructions - item # 3)

Application Instructions

Application Fee: This application must be completed in full and be accompanied by the appropriate non-refundable filing fee:

- The fee is dependent on the nature of the request. The fees are as follows:
 - \$50** Construction of a new or replacement well(s), or modification of a well(s) from 50 gpm or less to more than 50 gpm.
 - \$100** The combination of construction of a well and a groundwater transfer authorization (combination of 1 and 2).
 - \$250** Late permit for a well constructed without a permit prior to construction.
- An incomplete application will be returned for correction. A returned application must be resubmitted within 30 days or the filing fee is forfeited.
- The application must be signed by the landowner, his/her power of attorney or be accompanied by a notarized statement, signed by the landowner, authorizing the other person’s signature.
- State law requires that a “United States Citizenship Attestation Form” must be completed and submitted with the well permit application for all individuals. This form is **not** required for Corporations, Partnerships, City, County or Schools, etc.
- If the answer to item 12A was “YES”, a hydrologic evaluation, as described in District Rule 5, may be required. The applicant should contact the District prior to submission of this application.

Permit Restrictions and Important Information

- This permit shall remain in force for one (1) year from the date approved.
- The construction and operation of the wells authorized by a water well permit must comply with the provisions of the District’s Ground Water Management Area Rules and Regulations (District Rule 5). Failure to comply with District Rule 5 is subject to Issuance of a Cease and Desist Order and a civil penalty of not less than one thousand dollars, and not more than five thousand dollars for each day an intentional violation occurs. Prior to construction or operation, the permittee should contact the NRD office if he or she has any questions about the rules and regulations. A copy of District Rule 5 can be obtained by contacting the Upper Big Blue NRD office or online at <https://www.upperbigblue.org/about/rules-regulations>
- All wells permitted after March 1, 2004, must be equipped with a District approved flow meter prior to groundwater withdrawal.
- New irrigated acres, changes in farm operator, or changes to other information described in District Rule 5, must be reported to the District within 60 days of the change. New irrigated acres must also be reported to the County Assessor prior to being certified by the District.
- When a replacement well is constructed, the original water well must be decommissioned either before or within one hundred eighty days (180) after such construction.
- Issuance of this permit **DOES NOT** imply that the proposed well complies with Federal, State, or Local requirements. It is the responsibility of the applicant to determine compliance with all requirements related to the construction and operation of the proposed well.

Instructions

If a permit application is being made for a commercial or public water supply well that proposes to withdraw 250 acre feet of ground water annually this addendum must be completed in full and be must accompany the permit application. An incomplete application will be returned for correction.

- 12B. Will the groundwater withdrawal from the proposed water well(s) be commingled, or used for a common purpose with ground water from an existing well(s)?
Yes No
- 12C. For public water supply well(s). Is the proposed water well outside the corporate limits of the community?
Yes No (For commercial well(s) go to question 12D)
- 12D. Does the existing water well(s) referenced in question 12B currently withdraw 500 acre feet or more annually?
Yes No (If NO, please answer question 12E)
- 12E. Will the total commingled ground water withdrawal from the existing well(s) and proposed well(s) be 500 acre feet or more annually?
Yes No

If the answer to question 12C, 12D or 12E is "YES" a "Large Water User Study" may be required. DO NOT submit your application until you have consulted with District staff. The District has specific large water user study guidelines. These guidelines are available upon request.
